Message from the Chairman

“THIS GREAT SUCCESS STORY TODAY POSITIONS ENGIE AS THE WORLD LEADER IN THE ENERGY TRANSITION”

Dear Shareholders,

A new era is dawning for ENGIE in 2018. Engie's story, which I have been a part of since 1984, dates back more than 150 years. From its inception as Compagnie financière de Suez-Lyonnaise des Eaux, then from GDF SUEZ to ENGIE, as I conclude my final term as Chairman of the Group, I am very proud to have played a key role in these transformations – especially the change from a finance-centered Group to one focused on energy.

This great success story today positions ENGIE as the world leader in the energy transition, confirming the relevance of the strategy decided five years ago. True to its pioneering spirit, the Group continues to capitalize on its historical strengths to accompany this energy revolution and to help build a low-carbon energy world where gas and renewables are more than ever the energies of the future.

A committed and responsible global player, the Group has always stood by its convictions on the European and international stage. Strong examples of this include, among many others, its actions to fight against global warming, to promote universal energy access, and to put a price on carbon.

The 2017 results are in line with the Group's guidance. The three-year transformation plan that we launched with Isabelle Kocher in February 2016 was already 90% completed after only two years. The return of organic growth enables the Group to offer a dividend of €0.75 for 2018, an increase of 7.1%.

As you know, ENGIE's Board of Directors unanimously confirmed the decision made in 2016 to separate the roles of Chairman and Chief Executive Officer. I will leave the position of Chairman of the Board at the Annual General Meeting on May 18, 2018. On this occasion, there will be a resolution submitted for approval to shareholders to appoint a new independent director, Jean-Pierre Clamadieu, who will transition into the role of Chairman. I am pleased with the choice of Jean-Pierre Clamadieu, a great industrialist who has particularly distinguished himself in the transformation of Solvay, the international chemical group.

I would also like to recognize the Board of Directors and the Appointments, Compensation and Governance Committee for the quality of their work, as well as the rigorous process they have undertaken.

I am most grateful to the directors who have served on the Group's Board of Directors for their commitment, their determination, and their support at every stage of the Group's life.

Finally, let me conclude this message with thanks to all of those, especially our shareholders and stakeholders, who have supported and placed their trust in me throughout these 34 years. The Shareholder's Meeting has always been for me a special moment of exchange with you, and I look forward to our time together.

I wish great success to Jean-Pierre Clamadieu and Isabelle Kocher, and long life to ENGIE.

Gérard Mestrallet
Chairman of the Board of Directors

“WE HAVE SUCCEEDED IN THIS REPOSITIONING WHILE CONTINUING TO CREATE VALUE”

Message from the Chief Executive Officer

Dear shareholders,

Three years ago, we launched an ambitious repositioning project to make ENGIE the champion of the new energy world.

In meeting this challenge, the Group has built on foundations that were already in place: in fact, 80% of our activities were already in step with tomorrow's energy world when we started out. It was in total alignment with this new energy world and with society's changing needs that we decided to reposition the Group.

At the same time, we carried out a major divestment program and an ambitious investment plan.

In two years, we sold off nearly €13 billion in assets, while during the same period, we invested and secured €13.9 billion on our three growth drivers. By the end of the plan, we will have invested €7.1 billion in low-carbon electricity generation (including €4.5 billion in renewable energy), €2.6 billion in infrastructure and €4.6 billion in customer solutions.

These investments are driving major progress in our business. In low-carbon electricity generation, we will have almost doubled our solar and wind capacity between 2016 and 2019. Our total renewable generation now totals 24 GW⁽¹⁾, equivalent to 24 nuclear units. In infrastructure, we have continued to expand internationally, stepped up our natural gas “greening” efforts in France, and launched an entity dedicated to hydrogen. Finally, in customer solutions, we have completed 43 acquisitions since 2015, thereby consolidating our leading position in certain markets and gaining a foothold in sectors such as mobility, where the future will run on electricity and natural gas.

We have succeeded in this repositioning while continuing to create value.

Our financial results are solid. Our financial position has improved and we are now much freer to look to the future. With all this in mind, the Group has decided to propose an increase in the dividend to €0.75 per share for the 2018 fiscal year.

ENGIE has set in motion a dynamic of sustainable growth aimed at achieving more harmonious progress, reconciling individual needs and the public interest. We have resolutely changed course, and the in-depth work that has been done will continue unabated to ensure that our organization is more agile, more competitive, more digital, and thus all the better equipped to seize opportunities for growth.

2017 highlights

Financial data analysis

The 2017 results are in line with the Group's objectives: they include net recurring income, Group share of €2.6 billion and a substantial reduction in net debt.

This performance demonstrates that ENGIE has successfully coped with the impact of vigorous strategic positioning.

Revenues grew by 0.3% on a reported basis to €65.0 billion compared with December 31, 2016 (up by 1.7% on an organic basis). The increase on a reported basis was affected by a negative consolidation scope effect of €583 million, mainly reflecting disposals of merchant power generation assets in the United States, Poland and the United Kingdom, as well as an unfavorable foreign exchange effect of €300 million, mainly relating to the pound sterling. The organic growth in revenues was mainly due to higher volumes and prices of commodities sold in gas midstream activities in Europe and liquefied natural gas (LNG) midstream activities in Asia, and to the more robust performance of the thermal power generation fleet in Europe and Australia.

EBITDA amounted to €9.3 billion, down by 1.8% on a reported basis but up by a significant 5.3% on an organic basis. The decrease on a reported basis is due to a negative consolidation scope effect of €677 million, mainly reflecting disposals of merchant power generation assets in the United States and of Paiton in Indonesia, as well as the recognition in EBITDA of the negative nuclear contribution in Belgium (€142 million) from 2017. The organic growth in EBITDA reflects the effects seen at the level of revenues (excluding LNG and gas midstream activities), as well as the effects of the Lean 2018 performance program (+€393 million) and a slightly unfavorable temperature effect (-€58 million).

Net recurring income, Group share, without the change in the accounting treatment of E&P, improved compared with 2016, reaching €2.6 billion. This amount includes €0.2 billion in net recurring income, Group share from the ENGIE E&P International business ("Discontinued operations") without taking account of the IFRS 5 treatment (depreciation savings of €0.1 billion). After taking account of this impact, reported net recurring income, Group share was €2.7 billion, including €0.3 billion relating to discontinued operations.

Net income, Group share was €1.4 billion at December 31, 2017, including €0.2 billion for the operations of ENGIE E&P International ("Discontinued operations"). It includes more limited impairment losses than in 2016 (gross amounts of €1.3 billion in 2017, compared with €4.0 billion in 2016).

Net debt was €22.5 billion, down by €2.3 billion compared with the end of December 2016. This improvement mainly reflects operating cash flow generation during the year (€8.3 billion), the effects of the portfolio rotation program (€4.8 billion), and a favorable foreign exchange effect (€0.7 billion).

Excluding internal debt of E&P, net financial debt was €20.9 billion.

At the end of December 2017, ENGIE had substantial available liquid assets of €19.1 billion, including €9.6 billion in cash.

Net financial debt/EBITDA, which came in at 2.25 x (vs. 2.43 x in 2016), is in line with the target of $\leq 2.5x$.

2018 financial targets

For 2018, ENGIE projects a net recurring income, Group share of between €2.45 and €2.65 billion.

On the basis of net recurring income, Group share excluding E&P and LNG of €2.36 billion in 2017, this target represents growth of 8% on a reported basis and strong underlying organic growth.

This projection is based on an estimated range for EBITDA of €9.3 to 9.7 billion, also showing strong organic growth.

For 2018, ENGIE projects:

- a net financial debt/EBITDA ratio below or equal to 2.5x;
- a category "A" credit rating.

Dividend policy

For fiscal year 2017, ENGIE confirms the payment of a dividend of €0.70 per share, payable in cash.

With respect to the 2018 results, ENGIE has announced a new dividend policy, with a higher dividend (+7.1%) of €0.75 per share in cash.

Successful repositioning of ENGIE

The Group's ambitious repositioning, achieved by massive reinvestment in low-carbon power generation, infrastructures and customer solutions, has laid firm foundations that will enable ENGIE to embark on a new dynamic of growth.

At the end of 2017, ENGIE had disposed of €13.2 billion of assets (i.e. nearly 90% of the €15 billion net debt impact target for 2016-2018). €11.6 billion of disposals have been completed to date.

The Group has invested and committed to a total of €13.9 billion (i.e. 97% of its €14.3 billion program of growth investment for 2016-2018), including €10.2 billion that has been finalized.

As regards the Lean 2018 performance plan, thanks to the significant progress made, the Group has decided to raise its 2018 target by 20% to €1.2 billion of net gains expected at EBITDA level by 2018. At the end of December 2017, €947 million in cumulative net gains were realized at EBITDA level.

With regard to innovation and digital transformation, ENGIE continues to invest to prepare for the future and has confirmed its position as a pioneer in the energy and digital revolutions. The acquisitions of EVBox and Icomera in 2017 are fully in line with ENGIE's transformation strategy for smarter and greener mobility.

Today, ENGIE has a profile that is lower-risk (89% of EBITDA is contracted or regulated), lower-carbon (90% of EBITDA relates to low-carbon activities) and above all more profitable (ROCEp is now 7.2%, up 70 bps on 2015). Its financial position is healthy with less debt, stronger cash flow and the best rating in the sector.

Significant events

- In order to support its development plan in renewable energy and energy efficiency, on March 15 and September 19, 2017, ENGIE issued its second and third “green bonds” for €1.5 billion and €1.25 billion, respectively. In addition, on January 10, 2018, ENGIE set a new record for hybrid bonds with the lowest coupon ever achieved for a corporate bond: ENGIE profited from attractive market conditions to issue its first green hybrid bond, for €1 billion. This perpetual subordinated bond carries a coupon of 1.375% and its first non-call period is 5.25 years. It has replaced the issues of €600 million (3.875%, non-call 2018) and £300 million (4.625%, non-call 2019). With these bonds, the total green bonds issued by ENGIE since 2014 amount to €6.25 billion, confirming its commitment to play a leading role in the energy transition while supporting the development of green finance.
- At the beginning of September 2017, ENGIE participated in the French government's divestment program as part of its own share buyback program authorized by the Shareholders' Meeting of May 12, 2017: In conjunction with the accelerated institutional placement, ENGIE bought back 11.1 million of its own shares (i.e. 0.46% of its share capital).
- ENGIE duly noted the decision by France's Constitutional Council of October 6, 2017 to abolish the 3% tax on dividend payments and was reimbursed for these taxes paid since 2013.
- ENGIE Board of Directors met on February 13, 2018 and decided to submit to the vote of the Shareholders' Meeting of May 18, 2018 the appointment of Mr. Jean-Pierre Clamadieu as member of the Board of Directors in replacement of Mr. Gérard Mestrallet. The Board acknowledged Mr. Gérard Mestrallet's resignation from his Director position, effective at the close of the Shareholders' Meeting. Subject to approval at the Shareholders' Meeting, the Board of Directors will appoint Mr. Jean-Pierre Clamadieu to the position of Chairman of the Board, in replacement of Gérard Mestrallet, Founder of ENGIE and Chairman of its Board of Directors. The Board also decided to appoint Mr. Gérard Mestrallet as Honorary Chairman in recognition of the 23 years he devoted to developing the Group.
- Furthermore, in April 2017, credit rating agency S&P confirmed ENGIE's long-term “A-” rating with a negative outlook. In June 2017, credit rating agency Moody's confirmed ENGIE's long-term “A2” rating with a stable outlook. In October 2017, credit rating agency Fitch assigned ENGIE an “A” issuer credit rating with a stable outlook. ENGIE therefore has the highest rating among its peers in the utilities sector. For Fitch, these ratings recognize ENGIE's size and diversification, the growing proportion of its EBITDA related to regulated and contracted activities, decreasing its exposure to commodity prices, its ambitious expansion in customer solutions, and its prudent financial policy.

The Shareholders' Meeting, pursuant to the quorum and majority voting requirements for Ordinary Shareholders' Meetings, notes that the financial statements at December 31, 2017 show net income of €1,420,661,432 and retained earnings of €565,539,763.

5 Draft resolutions and purpose of the resolutions

Pursuant to the Board of Directors' recommendations, the Shareholders' Meeting resolves to appropriate the net income and distribute the dividend as follows:

(in euros)

Net income for the fiscal year ended December 31, 2017	1,420,661,432
Retained earnings at December 31, 2017	565,539,763
TOTAL AMOUNT AVAILABLE FOR DISTRIBUTION	1,986,201,195
Total dividend distributed for 2017 (including the supplementary dividend) ⁽¹⁾ :	1,699,669,061
• interim dividend of €0.35 per share paid on October 13, 2017 as part of the 2017 dividend	835,949,424
• final dividend to be paid out for 2017 ⁽¹⁾	863,719,637
The total dividend for fiscal year 2017 of	1,699,669,061
will be paid out of:	
• net income for the period, in the amount of:	1,420,661,432
• retained earnings, in the amount of:	279,007,629

(1) Based on the number of shares comprising the share capital at December 31, 2017, i.e., 2,435,285,011 shares. This includes 162,426,906 registered shares at December 31, 2017 carrying rights to the supplementary dividend of 10% within the limit of 0.5% of the share capital per registered shareholder.

Accordingly, the Shareholders' Meeting declares an ordinary dividend for 2017 of €0.70 per share, and a supplementary dividend of €0.07 per share.

In accordance with Article 26.2 of the bylaws, a supplementary dividend of 10% of the dividend, amounting to €0.07 per share, will be allocated to shares that have been registered for at least two years as of December 31, 2017, and which will be held in registered form by the same shareholder until May 24, 2018, the dividend payment date. This increase may not apply for a single shareholder to a number of shares representing more than 0.5% of the share capital.

After deduction of the interim dividend of €0.35 per share, paid on October 13, 2017, from the total dividend for fiscal year 2017, and corresponding to the number of shares carrying dividend rights at that date, or 2,388,426,992 shares, the final net dividend for 2017 amounts to €0.35 per share for shares carrying rights to an ordinary dividend, plus the supplementary dividend of €0.07 per share for shares carrying rights to the supplementary dividend.

On the date of the dividend payment, the dividend corresponding to the Company's treasury shares will be allocated to "Other reserves". As of March 6, 2018, the Company held 48,729,639 of its own shares.

Similarly, if some of the 162,426,906 registered shares carrying rights to the supplementary dividend as of December 31, 2017 ceased to be held in registered form between January 1, 2017 and May 24, 2018, the amount of the supplementary dividend corresponding to such shares will be allocated to "Other reserves".

The remaining distributable income will be allocated to retained earnings.

The final net dividend, plus the 10% supplementary dividend for shares carrying such rights, will be detached on May 22, 2018 (ex-dividend date) and will be paid in cash on May 24, 2018.

In accordance with the requirements of Article 243 bis of the French General Tax Code, shareholders are informed that, under the conditions defined by the laws and regulations in force, this entire gross dividend will be subject to a single flat-rate withholding tax at the overall rate of 30% (i.e. 12.8% for income tax and 17.2% for social security contributions), unless they opt for the progressive income tax scale, which would in this case apply to all capital revenue received in 2018. The progressive scale option confers entitlement to the 40% proportional deduction provided for in Article 158, paragraph 3-2 of the French General Tax Code. This regime is available to individuals who are tax residents of France.

Pursuant to applicable law, the Shareholders' Meeting duly notes that the dividend payouts for the three previous fiscal years are as follows:

Fiscal year	Number of shares carrying dividend rights	Amounts paid out (overall amount)	Net dividend (amount per share)
	(in millions)	(in euros)	(in euros)
2014 ⁽¹⁾	2,368 ⁽²⁾	2,402 million	1.00
2015 ⁽¹⁾	2,397 ⁽³⁾	2,414 million	1.00
2016 ⁽¹⁾	2,397 ⁽⁴⁾	2,414 million	1.00

(1) Pursuant to the disclosure requirement set forth in Article 243(b) of the French General Tax Code, note that dividends for the fiscal years ended December 31, 2014, December 31, 2015, and December 31, 2016 were eligible for the 40% deduction available to individuals who are tax residents of France, as provided in Article 158, paragraph 3-2 of the French General Tax Code.

(2) This number corresponds to shares carrying dividend rights at the time of payment of the final dividend for 2014 in April 2015. It is notably comparable to the number at the time of payment of the interim dividend in 2014.

(3) This number corresponds to shares carrying dividend rights at the time of payment of the final dividend for 2015 in May 2016. It is notably comparable to the number at the time of payment of the interim dividend in 2015.

(4) This number corresponds to shares carrying dividend rights at the time of payment of the final dividend for 2016 in May 2017. It is notably comparable to the number at the time of payment of the interim dividend in 2016.

Appointment of two directors (Resolutions 8 and 9)

Objective

After an in-depth search and selection process conducted by the Appointments, Compensation and Governance Committee, with the assistance of outside consulting firms, the Board of Directors proposes the appointment of Jean-Pierre Clamadieu and Ross McInnes as directors, pursuant to the 8th and 9th resolutions, each for a four-year term expiring at the end of the Ordinary Shareholders' Meeting to be convened in 2022 to approve the financial statements for the year ending December 31, 2021.

Subject to the Shareholders' approval, the Board will appoint Jean-Pierre Clamadieu as Chairman of the Board of Directors, and Ross McInnes as a member of the Audit Committee.

In addition to their respective personalities and motivations, the competencies and experience described below were decisive in the Board's choice of Jean-Pierre Clamadieu and Ross McInnes as candidates for the Shareholders' approval.

Jean-Pierre Clamadieu has exceptional experience as the leader of a CAC 40 industrial company operating worldwide in around 60 countries. In particular, he will contribute his considerable expertise when it comes to ENGIE's global industrial energy-services customers, which are among the key drivers of our development. Over the course of his career, he has been at the forefront of major industrial transformations. His knowledge of Belgium will also be a valuable asset in tackling the challenges facing the Group's businesses in that country. Furthermore, he has been deeply committed for many years to environmental and climate issues, in particular through his chairmanship of the MEDEF Sustainable Development Commission and as executive member of the World Business Council for Sustainable Development. Finally, he has proven experience in the separated governance of listed companies. The independence and availability of Jean-Pierre Clamadieu are detailed in Board of Directors report on page 46 of the Notice of Meeting.

As a non-executive chairman of a CAC 40 company, Ross McInnes combines recognized, proven financial expertise, which will serve ENGIE through his seat on our Audit Committee, with sound knowledge of the industry's strategic challenges. For 20 years, he has been CFO of industrial companies and has chaired several audit committees (Faurecia, IMI plc in the UK and currently Eutelsat). He has also played a key role in complex transformations. His dual French-Australian citizenship gives him an understanding of multicultural issues, particularly in English-speaking environments, while as a member of France's High Committee for Corporate Governance (*Haut Comité de Gouvernement d'Entreprise*), he will provide insight into best governance practices.

TWELFTH RESOLUTION

Approval, pursuant to Article L. 225-37-2 of the French Commercial Code, of the principles and criteria for the determination, distribution and allocation of the fixed, variable, and exceptional components of the total compensation and benefits of any kind attributable to the Chief Executive Officer

Having reviewed the Board of Directors' report on corporate governance, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to Ordinary Shareholders' Meetings, approves the principles and criteria for the determination, distribution and allocation of the fixed, variable and exceptional components of total compensation and benefits of any kind attributable to the Chief Executive Officer as of January 1, 2018, as presented in this report and appearing in Section 4.6.1.9 of the 2017 Registration Document.

Resolutions submitted to the Extraordinary Shareholders' Meeting

“Financial” delegations (Resolutions 13 to 25)

Objective

The Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016 had delegated authority to the Board of Directors for a period of 26 months to issue securities with or without preferential subscription rights to the general public or to institutional investors or in consideration of contributions of securities to the Company.

These delegations, which were not used, expired on July 2, 2018. The aim of renewing them is to allow the Company to carry out, at the appropriate time, the financial transactions required to finance its development.

In order to take into account the application of the Florange law and the diversity of expectations of our shareholders, we submit to your vote the renewal of the financial delegations, broken down into two series: the first concerns the delegations previously granted that can be used only outside periods of public tender offers for the Company; and the second concerns the conferral of delegations previously granted that are similar but to be used only during periods of public tender offers for the Company. These delegations would cancel and replace the aforementioned resolutions for a period of 26 months from the date of the Shareholders' Meeting.

The total nominal amount of the capital increases that may be realized in this way, immediately or in the future, may not exceed a nominal amount of €225 million, it being specified that this amount is common to Resolutions 13, 14, 15, 16, 17, 18, 19, 20, 21, and 22, and would be deducted from the overall ceiling of €265 million (nominal amount) provided for in Resolution 23 proposed to this Shareholders' Meeting.

In the event of the issue of securities representing debt securities in the Company, the maximum nominal amount of these debt securities would be set at €5 billion, it being specified that this amount would be deducted from the nominal amount of the debt securities that will be issued by virtue of Resolutions 13, 14, 15, 16, 17, 18, 19, 20, 21, and 22.

The authorizations granted by the resolutions submitted to your vote may, in any case, only be used within the limit of a number of securities such that, at the end of the issue in question, the French State holds an interest in the share capital or voting rights of the Company that complies with the legal provisions relating to the French State's shareholding in ENGIE's capital.

For your information, a table summarizing the financial delegations is provided in the Board of Directors' reports on pages 52 to 54 of the Notice of Meeting.

Delegation of authority granted to the Board of Directors to issue various securities with preferential subscription rights (to be used outside public tender offer periods/Resolution 13)

Objective

We submit to your vote the renewal of the resolution authorizing the Board of Directors to issue various securities with preferential subscription rights, which is the preference of the Board of Directors and would give it the necessary flexibility to carry out, where appropriate, issues that are best suited to market opportunities and the Company's needs.

These issues may take place at any time, except during the offer period in the event of the filing by a third party of a public tender offer for the Company's shares.

THIRTEENTH RESOLUTION

The Board of Directors may delegate, under the

- conditions established by law, the power to resolve to carry out the issue and the power to suspend it. However, in the event of the filing by a third party of a public tender offer for the Company's shares, the Board of Directors may not, for the duration of the offer period, resolve to implement this delegation of authority without the prior authorization of the Shareholders' Meeting;
2. sets the following limits on the amounts of the authorized issues in the event that the Board of Directors uses this delegation of authority:
 - the maximum nominal amount of the capital increases that may be carried out pursuant to this delegation is set at €225 million, it being specified that the nominal amount of the capital increases that may be carried out under Resolutions 14, 15, 16, 17, 18, 19, 20, 21, and 22 below will be deducted from this amount, subject to their adoption by the Shareholders' Meeting or on the basis of issues authorized by resolutions of the same kind that may succeed said resolutions during the period of validity of this delegation,
 - to this ceiling will be added, if necessary, the nominal amount of the supplementary shares to be issued in the event of new financial transactions, to preserve the rights of the holders of stock options and/or securities giving access to the capital,
 - this amount will be deducted from the amount of the overall ceiling set in Resolution 23, subject to its adoption by this Shareholders' Meeting, or, if applicable, from the amount of any ceiling provided for by a resolution of the same kind that may succeed it during the period of validity of this delegation,

 3. sets the term of validity of this authorization at **26 months** from the date of this Shareholders' Meeting and duly notes that this delegation supersedes, as of this date, the delegation granted under Resolution 13 of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016;
 4. in the event that the Board of Directors uses this delegation:
 - resolves that the issue or issues will be reserved by preference for shareholders that may subscribe irreducibly in proportion to the subscription rights they hold, and duly notes that the Board of Directors may establish for the benefit of shareholders a reducible subscription right which will be exercised in proportion to the subscription rights available to them within the limits of their requests,
 - resolves that, if the irreducible and, if applicable, the reducible subscriptions have not absorbed the entire issue of shares or securities as defined above, the Board of Directors may use the various powers provided for by law, in the order that it determines, including offering to the public all or part of the shares or, in the case of securities giving access to the capital, said unsubscribed securities, both in France and abroad,
 - resolves that issues of Company share warrants may be made by subscription offer under the conditions described above, but also by free allocation to the holders of the old shares,
 - resolves that in the event of a free allocation of stand-alone warrants, the Board of Directors may resolve that fractional rights will be non-transferable and that the corresponding shares will be sold,
 - duly notes that this delegation automatically entails, for the benefit of the holders of the securities issued pursuant to this delegation and giving access to the capital of the Company, the waiver by the shareholders of their preferential subscription rights to the shares to which the securities give entitlement;
 5. resolves that the Board of Directors will have all powers, with the power to further delegate under the conditions set by law, to implement this delegation of authority and, in particular, to set issue, subscription and payment conditions, to record the carrying out of the resulting capital increases, amending the bylaws accordingly, and to:
 - set, if applicable, the procedures for exercising the rights attached to the shares or securities giving access to the capital or debt securities to be issued, determine the procedures for exercising rights, if any, particularly to conversion, exchange, and repayment, including by the delivery of Company assets such as securities already issued by the Company,

 - at its own discretion, charge the costs of the capital increase against the amount of the relevant premiums and deduct from this amount the sums necessary to raise the legal reserve to one-tenth of the new capital after each capital increase,

- set and make any adjustments to take into account the impact of transactions on the capital of the Company, particularly in the event of a change in the share's nominal value, a capital increase by capitalization of reserves, the award of bonus shares, a stock split or reverse stock-split, the distribution of reserves or any other assets, capital write-offs or any other transaction involving shareholders' equity; and determine, where applicable, the arrangements for protecting the rights of holders of securities giving access to the capital,
- and, generally, enter into all agreements, in particular to ensure completion of the proposed issues, take all measures and decisions and accomplish all formalities required for the issue, listing and financial administration of the securities issued under this authorization and for the exercise of the rights attached thereto or required after each completed capital increase.

Delegations of authority granted to the Board of Directors to issue various securities with cancellation of preferential subscription rights (to be used outside public tender offer periods/Resolutions 14 and 15)

Objective

In the context of these two resolutions, we propose that you renew the authorization given to the Board of Directors to issue various securities with cancellation of preferential subscription rights.

Under Resolution 14, the Board of Directors may confer a priority subscription period on existing shareholders for all or part of the proposed issue.

The aim of Resolution 15 is to facilitate issues to institutional investors, pursuant to Article L. 411-2 II of the French Monetary and Financial Code.

With these resolutions, the Board may, where appropriate, carry out issues that are best suited to market opportunities and the Company's needs. As well as the authority to offer new shares to the Company's shareholders, the Board of Directors may carry out operations whose speed is an essential condition for success.

These issues may take place at any time, except during the offer period in the event of the filing by a third party of a public offer for the Company's shares.

FOURTEENTH RESOLUTION

Delegation of authority to the Board of Directors to resolve, with the cancellation of preferential subscription rights, to (i) issue ordinary shares and/or any securities giving access to the capital of the Company and/or its subsidiaries, and/or (ii) issue securities giving entitlement to the allocation of debt securities (to be used only outside public tender offer periods)

The ordinary shares of the Company and the securities giving entitlement to the ordinary shares of the Company may, in particular, be issued for the purpose of remunerating securities that would be contributed to the Company in the context of a public exchange offer (or any other transaction having the same effect) carried out in France or abroad according to local rules on securities meeting the conditions set out in Article L. 225-148 of the French Commercial Code. The Board of Directors may delegate, under the conditions established by law, the power to resolve to carry out the issue and the power to suspend it.  - the maximum nominal amount of the capital increases that may be carried out pursuant to this delegation is set at €225 million, it being specified that the nominal amount of the capital increases that may be carried out under Resolutions 13, 15, 16, 17, 18, 19, 20, 21, and 22 will be deducted from this amount, subject to their adoption by this Shareholders' Meeting or on the basis of issues authorized by resolutions of the same kind that may succeed said resolutions during the period of validity of this delegation,
 - to this ceiling will be added, if necessary, the nominal amount of the shares that may be issued in the event of new financial transactions, to preserve the rights of the holders of stock options and/or securities giving access to the capital,

- this amount will be deducted from the amount of the overall ceiling set in Resolution 23, subject to its adoption by this Shareholders' Meeting, or, if applicable, from the amount of any ceiling provided for by a resolution of the same kind that may succeed it during the period of validity of this delegation,

A reducible subscription right may also be established, it being specified that unsubscribed shares may be subject to a public placement in France and/or abroad;

SIXTEENTH RESOLUTION

Delegation of authority to the Board of Directors to increase the number of shares in the event of a securities issue with or without preferential subscription rights, in application of Resolutions 13, 14, and 15, limited to 15% of the initial issue (to be used only outside public tender offer periods)

Delegation of authority to the Board of Directors to issue various securities in consideration for contributions of securities made to the Company, up to a limit of 10% of the share capital (to be used only outside public tender offer periods/Resolution 17)

Objective

We propose that the shareholders renew the authorization given to the Board of Directors to issue various securities up to a limit of 10% of the share capital, at the time of the issue, in consideration for contributions in kind made to the Company and comprising equity securities or securities giving access to the capital of other companies.

This authorization seemed useful to the Board of Directors because it would allow for the acquisition of shares of unlisted companies, of medium size, for shares of the Company rather than in cash.

These issues may take place at any time, except during the offer period in the event of the filing by a third party of a public tender offer for the Company's shares.

SEVENTEENTH RESOLUTION

Delegation of authority to the Board of Directors to issue ordinary shares and/or various securities in consideration for contributions of securities made to the Company, up to a limit of 10% of the share capital (to be used only outside public tender offer periods)

Objective

With this resolution, we invite the shareholders to authorize the Board of Directors to increase the number of securities to be issued in the event of an issue of securities with or without preferential subscription rights, at the same price as that used for the initial issue, within the time frames and limits stipulated in the applicable regulation on the issue date.

This delegation would enable the Board of Directors to respond to demand in excess of the offer and to deal with market volatility.

These issues may take place at any time during the offer period in the event of the filing by a third party of a public tender offer for the Company's shares.

TWENTY-FIRST RESOLUTION

Delegation of authority to the Board of Directors to increase the number of shares in the event of a securities issue with or without preferential subscription rights, in application of Resolutions 18, 19, and 20, limited to 15% of the initial issue (to be used only during public tender offer periods)

Having reviewed the Board of Directors' report and the Statutory Auditors' report, and in accordance with Article L. 225-135-1 of the French Commercial Code, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to the Extraordinary General Shareholders Meeting:

1. delegates to the Board of Directors, with the power to further delegate under the conditions established by law, its authority to resolve to increase the number of securities to be issued in the event of an issue of securities with or without preferential

subscription rights, at the same price as that used for the initial issue, within the time frames and limits stipulated in the applicable regulation on the issue date (currently within 30 days of the closing of the subscription and within the limit of 15% of the initial issue) and subject to the ceilings established in the resolution in application of which the issue is decided, as well as the overall ceiling established in Resolution 23 below, subject to its adoption by this Shareholders' Meeting, or if applicable, any ceilings established by a resolution of the same kind that may succeed it during the period of validity of this delegation; this delegation may only be used in the event that a third party files a public tender offer for the shares of the Company and only during this offer;

2. sets the term of validity of this authorization at **26 months** from the date of this Shareholders' Meeting and duly notes that this delegation supersedes, as of this date, the delegation granted under Resolution 21 of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016.

Delegation of authority to the Board of Directors to issue ordinary shares and/or various securities in consideration for contributions of securities made to the Company, up to a limit of 10% of the share capital (to be used only during public tender offer periods/Resolution 22)

Objective	<p>We propose that the shareholders renew the authorization given to the Board of Directors to issue various securities up to a limit of 10% of the share capital, at the time of the issue, in consideration for contributions in kind made to the Company and comprising equity securities or securities giving access to the capital of other companies.</p> <p>This authorization seemed useful to the Board of Directors because it would allow for the acquisition of shares of unlisted companies, of medium size, for shares of the Company rather than in cash.</p> <p>These issues may take place at any time during the offer period in the event of the filing by a third party of a public tender offer for the Company's shares.</p>

5. sets the term of validity of this authorization at **26 months** from the date of this Shareholders' Meeting and duly notes that this delegation supersedes, as of this date, the delegation granted under Resolution 22 of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016.

Limitation of the overall ceiling for immediate or future capital increase delegations (Resolution 23)

Objective

The Board of Directors proposes that the shareholders set the maximum nominal amount of the capital increases that may be carried out pursuant to the delegations referred to in Resolutions 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 26, and 27 at €265 billion.

This is an overall ceiling common to the above resolutions, to which is added the nominal amount of any additional shares to be issued in the event of new financial transactions, to preserve the rights of the holders of securities giving access to the capital and the beneficiaries of stock options.

TWENTY-THIRD RESOLUTION

Limitation of the overall ceiling for immediate or future capital increase delegations

Having reviewed the Board of Directors' report and the Statutory Auditors' report, the Shareholders' Meeting, voting in accordance with the quorum and majority voting requirements for Extraordinary Shareholders' Meetings:

1. resolves to set at €265 million the maximum nominal value of immediate and/or future share capital increases that may be carried out pursuant to the authorizations conferred by Resolutions 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 26, and 27 of this Shareholders' Meeting, subject to their adoption by the Shareholders' Meeting or, if applicable, on the basis of issues authorized by resolutions of the same kind that may succeed said resolutions during the period of validity of this delegation, it being specified that to this nominal amount will be added (i) the maximum nominal amount of capital increases by capitalization of premiums, reserves, profits or other amounts that may be capitalized pursuant to Resolutions 24 and 25 below, subject to their adoption by the Shareholders' Meeting and on the basis of issues authorized by resolutions of the same kind that may succeed said resolutions during the period of validity of this

delegation, and (ii) the nominal amount of any additional shares to be issued to protect the rights of holders of stock options and securities giving access to the capital of the Company, pursuant to the law and, if applicable, contractual stipulations;

2. resolves to set at €5 billion, or the equivalent of this amount at the date of the issue decision for the foreign currency equivalent, the overall maximum nominal amount of the securities representing debt claims on the Company that may be issued pursuant to the authorizations conferred by Resolutions 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 26, and 27 of this Shareholders' Meeting, subject to their adoption by the Shareholders' Meeting or, if applicable, on the basis of issues authorized by resolutions of the same kind that may succeed said resolutions during the period of validity of this delegation;
3. resolves that the delegations granted by the above resolutions may, in any case, only be used by the Board of Directors or, if applicable, by the Chief Executive Officer or the Chief Operating Officer acting by delegation of the Board of Directors under legal conditions, within the limit of a number of securities such that, at the end of the issue in question, the French State holds an interest in the share capital or voting rights of the Company that complies with the legal provisions relating to the French State's shareholding in ENGIE's capital.

Objective

We propose a resolution to authorize the Board of Directors to increase the share capital, on one or more occasions, by capitalizing premiums, reserves, profits or other amounts that may be capitalized according to the law and to the bylaws.

This delegation would have a period of validity of 26 months as of this Shareholders' Meeting.

These capital increase transactions may take place at any time during the offer period in the event of the filing by a third party of a public tender offer for the Company's shares.

TWENTY-FOURTH RESOLUTION

Delegation of authority to the Board of Directors to resolve to increase the share capital by capitalizing premiums, reserves, profits or other amounts

Having reviewed the Board of Directors' report and in accordance with the provisions of the French Commercial Code, specifically Articles L. 225-129, L. 225-129-2 and L. 225-130, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to Extraordinary Shareholders' Meetings:

1. delegates to the Board of Directors its authority to resolve to increase the share capital, on one or more occasions, in the proportion and at the times that it deems appropriate, by capitalizing premiums, reserves, profits or other amounts that may be capitalized according to the law and to the bylaws, including by combination with a capital increase in cash carried

out pursuant to Resolutions 13, 14, 15, 16, 18, 19, 20 and 21 of this Shareholders' Meeting, subject to their adoption by the Shareholders' Meeting or on the basis of issues authorized by resolutions of the same kind that may succeed said resolutions during the period of validity of this delegation, and in the form of awarding bonus shares or raising the nominal value of existing shares or a combination of both. The maximum nominal amount of the capital increases that may be carried out in this regard will be equal to the aggregate amount that may be capitalized and will be added to the overall ceiling referred to in Resolution 23 above, subject to its adoption by this Shareholders' Meeting, or if applicable, any ceiling established by a resolution of the same kind that may succeed it during the period of validity of this delegation; this delegation may only be used in the event that a third party files a public tender offer for the shares of the Company and only during this offer;

 - resolve, in the case of bonus share distributions, that the fractional rights will be non-transferable and that the corresponding shares will be sold; the sums deriving from the sale will be allocated to the holders of rights under the conditions established in law,
 - make any adjustments to take into account the impact of transactions on the capital of the Company, particularly changes in the share's nominal value, a capital increase by capitalization of reserves, the award of bonus shares, a stock split or reverse stock-split, the distribution of reserves or any other assets, capital write-offs or any other transaction involving shareholders' equity; and determine, where applicable, the arrangements for protecting the rights of holders of securities giving access to the capital,
 - and, generally, enter into all agreements, in particular to ensure completion of the proposed issues, take all measures and decisions and accomplish all formalities required for the issue, listing and financial administration of the securities issued under this authorization and for the exercise of the rights attached thereto or required after each completed capital increase;

Cancellation of shares purchased by the Company by way of share capital reduction (Resolution 25)

Objective

We propose that the shareholders authorize the Board of Directors to cancel all or part of the shares that would be acquired under the share buyback program and to reduce the capital by up to 10% of the share capital per 24-month period, in order to increase the shareholders' proportionate interest in the company.

This delegation would cancel and replace that granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016, which has not been used, and would have a period of validity of 26 months as of this Shareholders' Meeting.

TWENTY-FIFTH RESOLUTION

Authorization of the Board of Directors to reduce the share capital by canceling treasury shares

Having reviewed the Board of Directors' report and the Statutory Auditors' report, and in accordance with Article L. 225-209 of the French Commercial Code, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to the Extraordinary General Shareholders Meeting:

1. authorizes the Board of Directors to reduce the share capital, on one or more occasions, in the proportions and at the times of its choosing, by canceling all or part of the shares acquired or that may be acquired by virtue of an authorization granted by the Ordinary Shareholders' Meeting by the Company itself, up to a limit of 10% of the share capital per 24-month period. Shareholders are reminded that this limit applies to an amount of the Company's capital that will, if necessary, be adjusted to take into account transactions affecting the share capital after this Shareholders' Meeting;
2. sets the term of validity of this authorization at **26 months** from the date of this Shareholders' Meeting and duly notes that this delegation supersedes, as of this date, the delegation granted under Resolution 28 of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016;
3. confers all powers on the Board of Directors, with the power to further delegate under the conditions established by law, to carry out the transaction(s) to cancel and reduce the capital by virtue of this authorization, establish their terms, note that they have been carried out, deduct the difference between the carrying amount of the canceled shares and their nominal amount from all reserves and premiums items, amend the bylaws accordingly, and carry out all formalities.

Delegations of authority to the Board of Directors to increase the share capital by issuing shares or securities giving access to equity securities to be issued, without preferential subscription rights, reserved for employees who are members of employee saving plans as well as for any entity constituted with the purpose of subscribing, holding and disposing of shares of the Company or other financial instruments as part of a Group international employee shareholding plan (Resolutions 26 and 27)

Objective

The Group's aim is to facilitate access to employee shareholding to the greatest number of employees in order to associate them more closely with its development and to share the value created in a different way.

The Link 2018 plan, which was approved by the Board of Directors on September 5, 2017, authorized by the AMF on January 19 of this year and then announced to the market on February 15, is part of this approach.

At the end of 2017, employees held 2.66% of ENGIE's share capital.

The Shareholders are therefore asked to renew the authorizations granted to the Board of Directors to carry out additional employee shareholding transactions at the time of its choosing.

Under Resolution 26, the Board of Directors would be authorized, as of September 1, 2018, for a period of 26 months from this Shareholders' Meeting, to increase the share capital on one or more occasions, without preferential subscription rights, for the benefit of employees who are members of one or more employee savings plans, up to the maximum nominal amount of 2% of the share capital on the date of implementation of the authorization, including the implementation of so-called "Multiple" formulas, it being specified that this 2% ceiling shall apply to all capital increases carried out under Resolution 27 of this Shareholders' Meeting.

Under Resolution 27, the Board of Directors would be authorized, from September 1, 2018, for a period of 18 months from the date of this Shareholders' Meeting, to increase the share capital on one or more occasions, without preferential subscription rights, for the benefit of any entity whose sole purpose is to purchase, hold and dispose of Company shares or other financial instruments as part of the implementation of a Group international employee shareholding plan, for a maximum nominal amount of 0.5% of the share capital on the date of implementation of the authorization, it being specified that such issues will be counted against the 2% overall ceiling set in Resolution 26.

The 2018 Link employee shareholding offer, which is currently under way, was resolved by utilization of Resolutions 14 and 15 of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017, the unused portion of which will be canceled as of September 1, 2018. These resolutions will be replaced respectively by Resolutions 26 and 27 of this Shareholders' Meeting.

The amount of the capital increases thus carried out would be deducted from the overall ceiling of €265 million referred to in Resolution 23 of this Shareholders' Meeting.

The issue price of the shares may not be less than the average price of the ENGIE share during the 20 trading days preceding the date of the decision setting the opening date of the subscription period, less a discount of 20%, or 30% when the holding period stipulated by the plan is at least 10 years, in accordance with applicable law, it being specified that the Board may reduce or eliminate the discount.

However, with regard to capital increases for the benefit of any entity whose sole purpose is to purchase, hold and dispose of shares or other financial instruments as part of an international employee shareholding plan, or any trusts set up to establish a Share Incentive Plan under English law, the Board of Directors may set a different subscription price than that set under Resolution 26 of this Shareholders' Meeting, should this be required by applicable local law. In all cases, this price may not be less than 80% (or 70% where applicable) of the average price of the ENGIE share over the 20 trading days preceding the date of the decision (i) setting the opening date of the subscription period for the capital increase carried out for employees who are members of any company savings plan pursuant to resolution 27 or, (ii) if the employee shareholding offer is made through the sale of shares as part of any employee savings plan, setting the opening date of the share purchase period for employees participating in the employee savings plan.

TWENTY-SIXTH RESOLUTION

Delegation of authority to the Board of Directors to increase the share capital by issuing shares or securities giving access to equity securities to be issued, without preferential subscription rights, for the benefit of ENGIE group employee savings plan members

Having reviewed the Board of Directors' report and the Statutory Auditors' report, and in accordance with Articles L. 225-129, L. 225-129-2 to L. 225-129-6, L. 225-138 and L. 225-138-1, L. 228-91 and L. 228-92 of the French Commercial Code, as well as Articles L. 3332-18 et seq. of the French Labor Code, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to the Extraordinary Shareholders' Meeting:

1. delegates its authority to the Board of Directors to increase the share capital on one or more occasions, by a maximum nominal amount representing 2% of the share capital on the date of implementation of the authorization, it being specified that this ceiling shall apply to all capital increases carried out under Resolution 27 of this Shareholders' Meeting, by issuing shares or securities giving access to equity securities to be issued, reserved for members of one or more company savings plans to be implemented within the Group, which consists of the Company and the French or international companies included in the Company's scope of consolidation pursuant to Article L. 3344-1 of the French Labor Code, it being understood that this resolution may be used to implement the leveraged "Multiple" investment formulas;

The Shareholders' Meeting nonetheless authorizes the Board of Directors to reduce or eliminate the aforementioned discount as it sees fit, subject to statutory and regulatory requirements, in order to take into account the impact of local legal, accounting, tax and social security systems. In case of issue of securities giving access to equity securities to be issued, the price will also be determined by reference to the terms described in this paragraph;
4. authorizes the Board of Directors to award, free of consideration, to the beneficiaries mentioned above and in addition to shares or share equivalents to be subscribed in cash, new or existing shares or share equivalents in substitution for all or a portion of the discount and/or the matching contribution, provided that the benefit from such award does not exceed the statutory or regulatory limits pursuant to Articles L. 3332-21 and L. 3332-11 of the French Labor Code. The maximum nominal amount of capital increases that may be made immediately or in the future as a result of the award of bonus shares or share equivalents shall be counted against the overall ceilings referred to in paragraph 1 above;
5. resolves to cancel the shareholders' preferential subscription rights to the securities covered by this authorization in favor of the beneficiaries mentioned above. In addition, the said Shareholders also waive any right to the bonus shares or share equivalents that would be issued pursuant to this resolution;
6. resolves that the Board of Directors, or a representative duly authorized in accordance with the law, shall have full powers to implement this authorization, within the limits and under the conditions specified above, and in particular to:
 - determine, in accordance with legal requirements, the list of companies whose members of one or more Company employee savings plans may subscribe to the shares or securities thus issued and to receive, where applicable, bonus shares or securities giving access to the capital,

 - in the event of an award of bonus shares or securities giving access to the capital, set the number of shares or share equivalents to be issued, the number allocated to each beneficiary, and set the dates, periods, terms and conditions for awarding such shares or securities in accordance with current statutory and regulatory requirements, and in particular decide whether to fully or partially substitute the allocation of such shares or securities for the discounts provided above, or to deduct the equivalent value of such shares from the total amount of the matching contribution, or to combine these two options,
 - record the completion of the capital increases in the amount of subscribed shares after any reductions in the event of oversubscription,
 - where applicable, charge the costs of the capital increases against the amount of the relevant premiums and deduct from this amount the sums necessary to raise the legal reserve to one-tenth of the capital resulting from each capital increase,

- enter into all agreements, carry out directly or indirectly by proxy all actions, including to proceed with all formalities required following capital increases, amend the bylaws accordingly and, generally, conclude all agreements, in particular to ensure completion of the proposed issues, take all measures and decisions, and accomplish all formalities required for the issue, listing and financial administration of the securities issued under this authorization and for the exercise of the rights attached thereto or required after each completed capital increase;

TWENTY-SEVENTH RESOLUTION

Having reviewed the Board of Directors' report and the Statutory Auditors' report, and in accordance with Articles L. 225-129, L. 225-129-2 to L. 225-129-6 and L. 225-138 of the French Commercial Code, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to the Extraordinary General Shareholders Meeting:

2. resolves that the maximum nominal amount of capital increases that may be carried out immediately or in the future pursuant to this resolution may not exceed 0.5% of the share capital on the date of implementation of the delegation, it being specified that this amount will be deducted from the ceiling of 2% of the share capital of the delegation under Resolution 26, as well as the overall ceiling referred to in Resolution 23 above, or from the amount of any ceiling provided for by a resolution of the same kind that may succeed it during the period of validity of this delegation;
3. sets the period of validity of this delegation, which will take effect on September 1, 2018, at **18 months** as of this Shareholders' Meeting. The number of shares granted over a period of 38 months would be limited to 0.75% of the share capital at the date of the Board of Directors' decision, it being specified that this amount is an overall ceiling for all awards made pursuant to Resolutions 28 and 29 of this Shareholders' Meeting, and that it is combined with an annual sub-ceiling of 0.25% of the share capital. The shares awarded would be outstanding shares.

This authorization would be valid for 38 months from this Shareholders' Meeting, and would supersede the unused portion of the delegation previously granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017.

The award of shares to the beneficiaries would be subject to (i) the condition of continuous service in the ENGIE group at the close of the vesting period and (ii) a vesting period of at least three years, except for some beneficiaries of the Trading business (subject to an obligation to stagger a portion of their annual variable compensation, in the form of securities, over several consecutive years) who may have a vesting period of two years for a portion of their shares.

For the Group's senior managers, the aggregate vesting and holding periods would be set at a minimum of four years, including at least three years for vesting. No minimum holding period would apply to any other beneficiary.

All beneficiaries, except those in the Trading business, would also be subject to the following three performance conditions, with each counting for one-third of the total: (i) an internal condition linked to ENGIE's Net recurring income, Group share for the two years preceding the final vesting date compared to the budgeted Net recurring income, Group share set for the same years (pro forma); (ii) an internal condition linked to ROCE (return on capital employed) for the two years preceding the final vesting date compared to the target ROCE set in the budget for the same years (pro forma); and (iii) an external condition linked to the TSR (total shareholders return) of the ENGIE share, for a minimum three-year period, compared with that of a reference panel over the same period. This reference panel is made up of EDF, EDP, E.ON, Innogy, RWE, ENEL, Iberdrola, Gas Natural, Spie and Uniper (hereinafter, the "Panel"), with each of these companies receiving an equal weighting, except for E.ON, Innogy, RWE and Uniper, which are accounted for as a half portion for weighting purposes. Spie and EDP have been added since 2017 to reflect both the transformation of the Group, which is strongly focused on its energy services and renewable energy activities, and, more generally, the current energy landscape.

Except for senior managers, the first 150 shares awarded would be exempt from performance conditions.

In the event of a major change in the ENGIE group's profile, the Board of Directors could choose other performance conditions more relevant to the new profile; similarly, in the event of a major change to one or more companies that make up the reference panel, the Board of Directors could modify the panel to keep it aligned with ENGIE's profile.

For some beneficiaries in Trading (subject to an obligation to stagger a portion of their annual variable compensation, in the form of securities, over several consecutive years), a condition specific to their activity may be applied.

For beneficiaries under the Innovation promotion programs or similar, the Board of Directors may resolve to eliminate the performance conditions.

TWENTY-NINTH RESOLUTION

Authorization for the Board of Directors to award bonus shares to some employees and corporate officers of ENGIE group companies (except for executive corporate officers of the ENGIE Company)

Having reviewed the Board of Directors' report and the Statutory Auditors' special report, the Shareholders' Meeting, pursuant to the quorum and majority requirements applicable to Extraordinary Shareholders' Meetings:

1. authorizes the Board of Directors, or a representative duly authorized in accordance with the law, to award, pursuant to Articles L. 225-197-1 et seq. of the French Commercial Code, on one or more occasions, outstanding bonus shares of the Company to some employees of the Company, as well as to the employees and corporate officers of the companies or entities related to it, except for executive corporate officers of the Company, pursuant to Article L. 225-197-2 of the French Commercial Code;
 2. sets the term of validity of this authorization at **38 months** from the date of this Shareholders' Meeting and duly notes that from this date this delegation supersedes (for the unused portion) the similar delegation given under Resolution 17 of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017;
 3. resolves that the total number of shares to be awarded under this authorization may not exceed 0.75% of the share capital outstanding as of the date of the Board of Directors' decision, combined with an annual sub-ceiling of 0.25% of the share capital, it being specified that this limit shall not include the number of shares to be awarded, if any, in respect of adjustments to preserve bonus share rights in the event of transactions on the Company's share capital or equity and, furthermore, that this limit is an overall ceiling for all awards that may be made under Resolutions 28 and 29 of this Shareholders' Meeting, subject to adoption thereby;
 4. resolves that the Company shares awarded will be subject to performance conditions based on internal and external criteria (except for beneficiaries under the Innovation promotion programs or similar, where applicable), and will be final after a vesting period of a minimum of three years (although the Board of Directors may reduce this period to two years for beneficiaries in the Trading business, which is subject to specific regulations), and that there will be no minimum holding period for shares after the vesting period, except in the case of the Group's senior managers, who are subject to a mandatory aggregate vesting and holding period of at least four years;
5. resolves that, in the event that a beneficiary is classified as having a second- or third-class disability, as defined by Article L. 341-4 of the French Social Security Code, the shares awarded to that beneficiary will vest immediately;
 6. grants full powers to the Board of Directors, or a representative duly authorized in accordance with the law, to implement this authorization, subject to the above limitations, and in particular to:
 - determine the identities of the beneficiaries and the number of shares to be awarded to each,
 - set the conditions and, where appropriate, the criteria for awarding the shares, including the minimum vesting period and the minimum holding period and the potential minimum holding period,
 - eliminate performance conditions for beneficiaries of Innovation promotion programs and similar,
 - resolve to waive performance conditions for an initial portion of each award for all beneficiaries, except for senior managers. The maximum number of shares that may be exempted is set at 150 per beneficiary,
 - provide, where appropriate, for the power to extend the vesting period and in such case, to defer the end date of the holding period accordingly, so that the minimum holding period remains unchanged,
 - adjust the number of shares awarded in the event that the value of the Company's shares should change as a result of transactions involving the share capital, in order to protect the rights of the beneficiaries of bonus shares,
 - set the dates and the terms and conditions of the bonus share awards and, in general, take all the necessary steps and enter into all agreements to properly complete the transaction.
 - provide, where appropriate, for the power to extend the vesting period and in such case, to defer the end date of the holding period accordingly, so that the minimum holding period remains unchanged,
 - adjust the number of shares awarded in the event that the value of the Company's shares should change as a result of transactions involving the share capital, in order to protect the rights of the beneficiaries of bonus shares,
 - set the dates and the terms and conditions of the bonus share awards and, in general, take all the necessary steps and enter into all agreements to properly complete the transaction.

If the Shareholders approve this proposal, the dividend for 2017 will be set at €0.70 per share, and the supplementary dividend will be set at €0.07 per eligible share, for a total dividend payout of €1,699,669,061.

The remaining distributable income will be allocated to retained earnings.

Approval of regulated agreements and commitments pursuant to Article L. 225-38 of the French Commercial Code (4th, 5th and 6th resolutions)

In accordance with Articles L. 225-38 *et seq.* of the French Commercial Code, the Board of Directors proposes that you approve the following regulated agreements, as described in the Statutory Auditors' special report found in Section 4.8 of the 2017 Registration Document:

- **4th resolution:** Merging of the French gas terminal and transmission activities (authorized by the Board of Directors at its meeting of June 28, 2017);

- **5th resolution:** Firm purchase of 11,100,000 shares from the French state (agreement authorized by the Board of Directors on September 5, 2017). These shares will be offered to employees as part of the Link 2018 employee shareholding plan;

- **6th resolution:** Potential future purchase from the French state of up to 11,111,111 shares, depending on the number of shares acquired by employees as part of the Link 2018 employee shareholding plan (agreement authorized by the Board of Directors on December 13, 2017).

Authorization to be granted to the Board of Directors to trade in the Company's shares (7th resolution)

On May 12, 2017, the Shareholders' Meeting authorized the Company to trade in its own shares under the following terms and conditions:

- maximum purchase price: **€30** per share (excluding transaction costs);
- maximum shareholding: 10% of the share capital;
- maximum percentage of shares acquired during the term of the program: 10% of the shares comprising the share capital as of the date of this Shareholders' Meeting;
- maximum amount of purchases: €7.3 billion.

Between the Shareholders' Meeting of May 12, 2017 and March 6, 2018, the Company has:

- purchased 28,034,623 shares on the stock market for a total value of €391.4 million (an average price of €13.96 per share), of which 16,934,623 shares under the liquidity agreement and 11,100,000 shares under the share buyback program;
- sold 15,059,623 shares on the stock market for a total value of €213 million (an average price of €14.15 per share) under the liquidity agreement.

The authorization granted by the Shareholders' Meeting of May 12, 2017 to trade in the Company's shares will expire on November 11, 2018.

The Shareholders are now asked to grant the Board of Directors a new authorization, with corresponding termination of the portion not yet used of the previous authorization, to trade in the Company's shares effective September 1, 2018 for another **18-month period** starting from this Meeting, it being specified that the Link 2018 Employee Shareholding Offer, being set up as at the date of this Meeting, was authorized by the Board of Directors at its meeting of December 13, 2017, primarily by virtue of the 6th resolution of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017, which would therefore remain in effect until August 31, 2018.

For the purposes mentioned hereinafter, this new authorization complies with the terms and conditions set forth in Articles L. 225-209 *et seq.* of the French Commercial Code, European Regulation No. 596/2014 of April 16, 2014 on market abuse, related regulations of the European Commission, Articles 241-1 *et seq.* of the General Regulations of the *Autorité des Marchés Financiers* (AMF – French Financial Markets Authority), and market practices accepted by the AMF.

Share purchases help in stimulating the share price on the Paris and Brussels stock exchanges by an independent investment services provider that complies with the Code of Ethics recognized by the *Association Française des Entreprises d'Investissement* (AFEI). They also allow the subsequent cancellation of shares in order to improve the return on equity and earnings per share. The shares purchased may also be used to implement programs for employees or executive corporate officers, including stock option plans to purchase or subscribe for shares, bonus share awards, or employee share ownership plans set up for company-sponsored employee savings plans. They may also be used to carry out financial transactions, including transfers, sales or exchanges, and to ensure coverage of securities convertible into Company shares. The Company may hold and subsequently deliver such shares in exchange, payment, or other, in connection with external growth transactions, within the limit of 5% of the share capital, or to implement any other market practices allowed or that may be allowed by the authorities, subject to communicating such information to the Company's shareholders.

This resolution could be used in the implementation of employee savings plans through the transfer of treasury shares to employees, instead of through the capital increases which are subject of the **26th and 27th resolutions** submitted to this Shareholders' Meeting.

This resolution shall not apply during a public tender offer for the shares of the Company.

The proposed terms and conditions of the new authorization are as follows:

- maximum purchase price: **€30** per share (excluding transaction costs);
- maximum shareholding: 10% of the share capital;

- maximum percentage of shares acquired during the term of the program: 10% of the shares comprising the share capital as of the date of this Shareholders' Meeting;
- maximum amount of purchases: €7.3 billion.

It is, however, specified that with respect to the particular case of shares purchased under the liquidity contract, the number of shares taken into account for calculating the 10% limit shall correspond to the number of shares purchased minus the number of shares resold during the term of the authorization.

Appointment of two directors (8th and 9th resolutions)

Based on the recommendations of the Appointments, Compensation and Governance Committee, the Shareholders are asked to appoint Jean-Pierre Clamadieu and Ross McInnes as directors for a four-year term expiring at the end of the Ordinary Shareholders' Meeting that will be convened in 2022 to approve the financial statements of the fiscal year ended December 31, 2021.

Their biographies are provided on pages 72 and 73 of the Notice of Meeting.

Additionally, at its meeting after the close of the Shareholders' Meeting of May 18, 2018, the Board of Directors will appoint Jean-Pierre Clamadieu as its Chairman, subject to his election as director by the Shareholders' Meeting.

To this end, the Board reviewed Jean-Pierre Clamadieu's independence and availability, after consulting with the Appointments, Compensation and Governance Committee.

As a reminder, Jean-Pierre Clamadieu is a board member, executive committee chairman and chief executive officer of Solvay and a board member of AXA. He has resigned from his directorship of Faurecia.

Finally, the Airbus board of directors will be nominating him as a board member at its annual general meeting.

Turning to the issue of independence, the Board specifically examined the flow of business with Solvay.

The Board noted that if ENGIE's 2017 revenue from business with Solvay is compared with ENGIE's 2017 revenue, it remains well below 1% of ENGIE's consolidated revenue... The results are similar when comparing Solvay's 2017 revenue from business with ENGIE with Solvay's consolidated revenue.

This flow of business between the two groups dates back many years and has been ongoing with no notable changes. It is therefore unlikely to hinder Jean-Pierre Clamadieu's independence.

The Board further noted that, given Solvay's structure and the amounts involved in the contracts between Solvay and ENGIE, no review of those contracts was performed either by the Board of Directors or by Solvay's executive committee.

Jean-Pierre Clamadieu has stated that if, as part of his future role at ENGIE, and as long as he holds positions within the Solvay Group, a project of any kind arises in connection with the Solvay Group, he will refrain from participating in any discussions or deliberations. The same commitment will be made within the Solvay Group.

In light of these factors, the Board deemed that if elected to the Board by the Shareholders' Meeting, Jean-Pierre Clamadieu would qualify as an independent director.

With regard to the other companies in which Jean-Pierre Clamadieu holds or is likely to hold a directorship, the flow of business with ENGIE represents a negligible portion of the respective revenues.

As for the number of offices held by Jean-Pierre Clamadieu in listed companies, assuming he is appointed to the Airbus board, he will temporarily hold four offices, one of which is an executive office in a European company that is not subject to the AFEP-MEDEF Code.

This situation is in fact temporary since Jean-Pierre Clamadieu's executive functions at Solvay are expected to expire at the end of 2018.

Moreover, ENGIE's Board of Directors has determined that Jean-Pierre Clamadieu will devote the necessary time to his duties as Chairman of the Board of Directors.

Consultation on the components of compensation due or awarded for 2017 to Isabelle Kocher, Chief Executive Officer (10th resolution)

In accordance with Article L. 225-100-II of the French Commercial Code, the Shareholders are asked by virtue of the *ex-post* vote on the **10th resolution** to issue a favorable opinion on the fixed, variable and exceptional components comprising the total compensation and benefits of any kind paid or awarded to Isabelle Kocher, Chief Executive Officer, for 2017, as described below and in Section 4.6.1.8 of the 2017 Registration Document.

As a reminder, Gérard Mestrallet, Chairman of the Board, received no compensation in respect of his office in 2017.

Board of Directors' Report on the resolutions submitted

Compensation components	Amount	Details
Matching contribution to retirement plan	€438,632	At its meeting of May 3, 2016, the Board of Directors voted to maintain the matching contribution arrangement from which Isabelle Kocher benefited when she was Chief Operating Officer. Under this supplementary collective pension plan, the Company does not guarantee the amount of pension but pays an annual matching contribution, half of which comprises contributions paid to a third-party organization under an optional defined-contribution retirement plan (Article 82) and half is a cash sum, given the immediate taxation on commencement of this new mechanism. The matching contribution corresponds to a ratio of 25% of the sum of the fixed compensation and the actual variable compensation accrued for the period in question. It also depends on the Company's performance, since the calculation base already includes the variable portion linked to the Group's results. For 2017, this matching contribution is €438,632, subject to shareholder approval.
Multi-year variable compensation	None	Isabelle Kocher receives no variable multi-year compensation.
Directors' fees	None	Isabelle Kocher receives no Directors' fees.
Extraordinary compensation	None	Isabelle Kocher receives no exceptional compensation.
Allocation of stock options, performance shares and any other long-term compensation	Valuation ⁽²⁾ €730,880	On the recommendation of the Appointments, Compensation and Governance Committee, the Board of Directors, at its meeting of March 1, 2017, voted to award 120,000 Performance Units to Isabelle Kocher for 2017. On December 6, 2011, the Board of Directors decided that the value of this component of compensation should not exceed 40% of the total compensation.
Compensation associated with the commencement or termination of duties	None	Isabelle Kocher's employment contract has been suspended since January 1, 2015. The Afep-Medef Code recommends that when an employee becomes an executive corporate officer, their employment contract with the company should be terminated. While this recommendation does not apply to chief operating officers, it does apply to chief executive officers. When Isabelle Kocher was appointed Chief Executive Officer after serving as Chief Operating Officer, the Board of Directors nevertheless deemed it appropriate to maintain the suspension of her employment contract. The Board decided that the rights accrued by Isabelle Kocher in respect of the supplementary collective pension plans for executive officers up until December 31, 2014, which is the period prior to the suspension of her employment contract, would remain frozen and preserved, which implied keeping her employment contract suspended. ENGIE's internal promotion policy assigns corporate officer positions to experienced executives with in-depth knowledge of the industry and markets in which ENGIE operates and who have had successful career paths within the Group. For these executives, the loss of rights associated with their employment contract and length of service would be a hindrance and counterproductive. The suspended employment contract of Isabelle Kocher does not provide for specific consideration under a non-compete or golden parachute clause. As part of the Company's human resources policies, all employees of ENGIE Management Company receive severance compensation when their employment contract is terminated. Compensation due under said policies amounts to 3/5 of the monthly salary per year of service in the company or Group and is capped at 18 months' salary. "Monthly salary" is understood to mean one-twelfth of the annual fixed compensation of the current year plus the last paid variable component. Isabelle Kocher's length of service at the time of her appointment as Chief Executive Officer on May 3, 2016 was 13 years and seven months. Note that there is no system of hiring bonuses or golden parachutes in place for executive corporate officers at ENGIE and that no consideration is provided in respect of non-compete clauses.

(2) See note about this theoretical valuation in Section 4.6.1.7 of the 2017 Registration Document.

Compensation components	Amount	Details
Supplementary collective pension plan	None	<p>In addition to mandatory pension plans, until December 31, 2014, Isabelle Kocher benefited from the supplementary collective pension plans of the former SUEZ group (which she joined in 2002), consisting of a defined-contribution plan and a defined-benefit plan.</p> <p>The defined-contribution plan (Article 83) is based on gross annual compensation and the following contribution rates: 5% bracket A (equivalent to the annual social security ceiling), 8% bracket B (between one and four times the social security ceiling), 8% bracket C (between four and eight times the social security ceiling).</p> <p>The defined-benefit plan (Article 39) is governed by Article L. 137-11 of the French Social Security Code. It is run by ENGIE Management Company, a wholly owned French subsidiary of ENGIE. The beneficiaries of this plan are the executives and corporate officers of ENGIE Management Company who are registered with the French social security system and meet the following three conditions: (i) they received gross compensation above the ceiling for bracket B contributions to the AGIRC executive supplementary pension plan, i.e. over four times the annual social security ceiling, (ii) they were working for a Group company when they retired, and (iii) they were entitled to at least one basic pension plan. The calculation basis for the annuity amount is the gross compensation received during the year in question, capped at 50 times the social security ceiling. The amount of compensation is that used as the basis for social security contributions as defined in Article L. 242-1 paragraph 1 of the French Social Security Code.</p> <p>This plan provides for the payment of an annuity equal to the sum of the annual pension components calculated on 2% of the portion of gross annual compensation between four and eight times the social security ceiling (designated bracket C) and 4% of the portion of gross annual compensation between eight and fifty times the social security ceiling (designated bracket D), minus the above defined-contribution plan calculated on bracket C of the compensation. For a career of a minimum of 10 years in the plan, the total annuity cannot be less than 20% of bracket C of average compensation for the last five years plus 30% of bracket D for the same compensation, nor more than 30% of bracket C plus 40% of bracket D. If the career is less than 10 years, the corresponding rights are calculated on a prorata basis of actual time worked.</p> <p>The rights under the defined-benefit plan are “not guaranteed” since they depend on the employee working in the Group at the time his or her pension is claimed in accordance with a mandatory plan for pension insurance.</p> <p>ENGIE Management Company is responsible for financing these plans and pays premiums to a third-party insurance company which it has contracted to manage the pensions, calculate the actuarial provisions for the annuities, and manage the payments. The corresponding social security costs borne by the Company amount to 24%.</p> <p>In accordance with the decisions of the Board of Directors on March 10 and May 3, 2016, Isabelle Kocher’s entitlement to the supplementary collective defined-contribution and defined-benefit pension plans were frozen on suspension of her employment contract, i.e. December 31, 2014.</p> <p>The rights accumulated from 2002 to 2014 under the collective defined-benefit plan would result, subject to the condition of continuous service in the Group, in an annual annuity, estimated at year-end 2015, at the end of her career aged 65, of €145,456, before tax and social security deductions.</p>
Benefits in kind	€6,012	Isabelle Kocher benefits from the use of a company vehicle.

Approval, pursuant to Article L. 225-37-2 of the French Commercial Code, of the principles and criteria for the determination, distribution and allocation of the fixed, variable, and exceptional components of the total compensation and benefits of any kind attributable to each executive corporate officer (11th and 12th resolutions)

Article L. 225-37-2 of the French Commercial Code introduced the principle of an *ex-ante* vote, which consists of presenting a resolution to the shareholders to approve the principles and criteria for the determination, distribution and allocation of the fixed, variable and exceptional components of total compensation and benefits of any kind attributable to the executive corporate officers commensurate with their office. This vote is required annually and whenever an appointment is renewed.

Therefore, the Shareholders are asked, in the **11th and 12th resolutions**, to approve the principles and criteria for the determination, distribution and allocation of the fixed, variable, and exceptional components of total compensation and benefits of any kind attributable to the Chairman of the Board of Directors as from May 18, 2018, and to the Chief Operating Officer as from January 1, 2018 as recommended by the Appointments, Compensation and Governance Committee at its meeting of March 1, 2018 and as set by the Board of Directors at its meeting of March 7, 2018.

These components and the weighting between their fixed, variable and exceptional portions are presented in Section 4.6.1.9 of the 2017 Registration Document, as well as below:

PRINCIPLES AND CRITERIA FOR THE DETERMINATION, DISTRIBUTION AND ALLOCATION OF THE FIXED, VARIABLE, AND EXCEPTIONAL COMPONENTS OF TOTAL COMPENSATION AND BENEFITS OF ANY KIND ATTRIBUTABLE TO THE CHAIRMAN OF THE BOARD OF DIRECTORS

As recommended by the Appointments, Compensation and Governance Committee, the Board of Directors, at its meeting of March 7, 2018, set the principles and criteria for the determination, distribution and allocation of the fixed, variable and exceptional items comprising the total compensation and benefits of any kind attributable to the Chairman of the Board for his service in 2018. This policy applies as from May 18, 2018 at the end of the Shareholders' Meeting called to vote thereon in accordance with Article L.225-37-2 of the French Commercial Code.

The compensation paid to the Chairman of the Board of Directors is comprised of a fixed annual salary. It does not include any annual or multi-year variable compensation or any long-term incentive plan.

The fixed annual compensation is set at €350,000.

Under the current policy, executive corporate officers do not receive directors' fees for their participation in the work of the Board of Directors and its committees.

The Chairman of the Board of Directors may have access to pension and health insurance coverage.

He benefits from the use of a company vehicle.

PRINCIPLES AND CRITERIA FOR THE DETERMINATION, DISTRIBUTION AND ALLOCATION OF THE FIXED, VARIABLE AND EXCEPTIONAL COMPONENTS OF TOTAL COMPENSATION AND BENEFITS OF ANY KIND ATTRIBUTABLE TO THE CHIEF EXECUTIVE OFFICER

As recommended by the Appointments, Compensation and Governance Committee, the Board of Directors, at its meeting of March 7, 2018, decided to leave unchanged the various elements of the Chief Executive Officer's compensation policy.

This policy will be submitted for approval to the Shareholders' Meeting to be held on May 18, 2018, in accordance with Article L. 225-37-2 of the French Commercial Code.

The policy, which is reviewed annually by the Appointments, Compensation and Governance Committee, is based in particular on specific studies carried out by an external firm specializing in this area.

In its recommendations to the Board of Directors, the Appointments, Compensation and Governance Committee seeks to propose a compensation policy in line with the practices of comparable major international groups for similar positions, based on a benchmark established by a specialized external firm that includes companies listed on the CAC 40, Eurostoxx 50 and Eurostoxx Utilities indices, excluding companies in the financial sector.

Specific, stringent quantifiable and qualitative performance criteria are set both for the variable portion of compensation and for long-term incentive plans, helping to maintain a link between the Group's performance and the compensation of the Chief Executive Officer in the short-, medium- and long-term.

The Chief Executive Officer's compensation includes a fixed component, a variable annual component and a long-term incentive component.

The fixed component is reviewed annually. It does not change unless the Board of Directors, on the recommendation of the Appointments, Compensation and Governance Committee, votes otherwise, in particular with regard to the market context, any changes in ENGIE's profile, and movements in Group employee compensation.

The annual variable component is designed to reflect the executive's personal contribution to the Group's development and results. It is balanced in relation to the fixed component and determined as a percentage of fixed compensation. It also includes criteria aligned with the assessment, conducted annually, of the Chief Executive Officer's performance and with the Company's strategy. Sixty percent of its criteria are quantifiable, to reward economic performance, and 40% are qualitative. The qualitative criteria include at least one corporate, societal and environmental responsibility target. The quantifiable and qualitative targets contain sub-weightings.

The long-term incentive component takes the form of performance units that are subject to performance conditions comparable to those of performance-based share plans for which Company executive corporate officers are not eligible. The performance conditions are quantifiable only and include at least one external condition relating to the relative change in total shareholder return and an internal condition relating to value creation. This long-term incentive component is designed to encourage executives to make a long-term commitment as well as to increase their loyalty and align their interests with the Company's corporate interests and the interests of shareholders. This particular component may not account for more than 40% of the executive's total compensation at the initial award. When performance units are exercised, the Chief Executive Officer is required to reinvest a portion of income for the year in Company shares until said Officer's share portfolio is equal to two years' fixed compensation.

The payment of the variable and exceptional compensation components for 2018 will be contingent on the approval of shareholders at their Annual Ordinary Shareholders' Meeting in 2019. This applies to the annual variable compensation and the matching contribution to the pension plan of the Chief Executive Officer for 2018, the payment of which shall only occur following the favorable vote at the aforementioned Shareholders' Meeting.

Lastly, the Chief Executive Officer shall continue to benefit from a supplementary pension plan system in which the Company does not guarantee the amount of pension but pays an annual matching contribution, half of which comprises contributions paid to a third-party organization under an optional defined-contribution retirement plan (Article 82) and half is a cash sum, given the immediate taxation on commencement of this mechanism. The matching contribution will correspond to a ratio of 25% of the sum of the fixed compensation and the actual variable compensation accrued for the given year. It will also depend on the Company's performance, since the calculation base already includes the variable portion linked to the Group's results. The Chief Executive Officer shall also continue to be eligible for collective pension and health care plan protection for executive officers in order to be compensated under terms that are in line with market conditions.

The Chief Executive Officer is a member of the Board of Directors but does not receive any directors' fees in this regard.

Pursuant to these principles, the Chief Executive Officer's fixed compensation in 2018 remains unchanged at €1,000,000,

The target bonus that will be paid in 2019 for fiscal 2018 also remains unchanged at €700,000, corresponding to 70% of fixed compensation, capped at €840,000, which is 120% of the target bonus. Variable compensation in 2018 is broken down into two components: a quantifiable component (60%) and a qualitative component (40%). For the quantifiable component, the criteria used are net recurring income, Group share per share (50%) and free cash flow, ROCE and net debt (each counting for one-sixth of the overall total) (50%). The quantifiable targets for 2017 were included in the Group's projected budget as presented to the Board of Directors on March 7, 2018.

At its meeting of March 7, 2018, the Board also approved and weighted the qualitative targets for 2018. Since these may contain sensitive information regarding the Group's strategy, they will not be made public until 2019.

Lastly, the Board of Directors approved a long-term incentive component in the form of 120,000 performance units to be awarded in respect of fiscal 2018. Performance units will be fully vested on March 15, 2022, after which the Chief Executive Officer has three years to exercise them, with fractional shares permitted. The vesting of these performance units in 2022 will depend on the achievement

of a threefold performance condition, each criterion weighing one third of the total: an internal condition related to net recurring income, Group share for 2020 and 2021, an internal condition related to ROCE for 2020 and 2021, and an external condition related to the TSR of ENGIE stock compared with the TSR of a reference panel. The internal conditions are matched against targets set in the Medium-Term Plan (MTP).

The reference panel consists of EDF, EDP, E.ON, Innogy, RWE, ENEL, Iberdrola, Gas Natural, Spie and Uniper (the "Panel"), with each company weighted equally, with the exception of E.ON, Innogy, RWE and Uniper, which count for 50% for weighting purposes. Spie and EDP have been added since 2017 to reflect the Group's transformation, which relies heavily on the energy service business lines and renewable energy, and more generally the current energy landscape.

The scoring of performance conditions for the performance units will be as follows: for a result equal to or less than 80% of target, the success rate will be equal to zero. For a result equal to or greater than 100% of target, the success rate will be equal to 100%. The increase between the two limits will be linear.

The Chief Executive Officer will furthermore continue to benefit from a supplementary defined-contribution pension plan under the terms mentioned above, as well as from collective pension and health care plan protection for executive officers.

It should also be noted that Isabelle Kocher's employment contract has been suspended since January 1, 2015. The AFEP-MEDEF Code recommends that when an employee becomes an executive corporate officer, their employment contract with the company should be terminated. While this recommendation does not apply to chief operating officers, it does apply to chief executive officers. When Isabelle Kocher was appointed Chief Executive Officer after serving as Chief Operating Officer, the Board of Directors nevertheless deemed it appropriate to maintain the suspension of her employment contract. The Board decided that the rights accrued by Isabelle Kocher in respect of the supplementary collective pension plans for executive officers up until December 31, 2014, which is the period prior to the suspension of her employment contract, would remain frozen and preserved, which implied keeping her employment contract suspended. ENGIE's internal promotion policy assigns corporate officer positions to experienced executives with in-depth knowledge of the industry and markets in which ENGIE operates and who have had successful career paths within the Group. For these executives, the loss of rights associated with their employment contract and length of service would be a hindrance and counterproductive.

The suspended employment contract of Isabelle Kocher does not provide for specific consideration under a no-compete or golden parachute clause. As part of the Company's human resources policies, all employees of ENGIE Management Company receive severance compensation when their employment contract is terminated. Compensation due under said policies amounts to 3/5 of the monthly salary per year of service in the company or Group and is capped at 18 months' salary. "Monthly salary" is understood to mean one-twelfth of the annual fixed compensation of the current year plus the last paid variable component. Isabelle Kocher's length of service at the time of her appointment as Chief Executive Officer on May 3, 2016 was 13 years and seven months.

Note that there is no system of hiring bonuses or golden parachutes in place for executive corporate officers at ENGIE.

Lastly, Isabelle Kocher benefits from the use of a company vehicle.

To take into account the diverse interests and requirements of your company's shareholders, you are asked to renew all delegations granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016, it being specified that these are divided into two parts, the first (resolutions 13 to 17) usable only outside periods of public tender offers and the second (resolutions 18 to 22) usable only during periods of public tender offers for the Company's securities:

RENEWAL OF THE DELEGATIONS OF AUTHORITY GRANTED BY THE COMBINED ORDINARY AND EXTRAORDINARY SHAREHOLDERS' MEETING OF MAY 3, 2016

Delegations usable only outside periods of public offerings of the Company's securities

The purpose of the delegations of authority referred to in the **13th, 14th, 15th, 16th and 17th resolutions** is to provide the Board of Directors with a number of options to issue, when the time comes and in a way that is quick and flexible, various securities in accordance with applicable regulations in order to assemble the financial means necessary for ENGIE's development strategy.

This would grant the Board of Directors the authority to issue shares and share equivalents or securities giving rights to the allocation of debt securities in France and abroad, in euros or foreign currencies, with or without shareholders' preferential subscription rights, based on the opportunities offered by the financial markets and on the interests of the Company and its shareholders. These new delegations will terminate those delegations granted by the previous Shareholders' Meetings that were not used and may only be used outside periods of public offerings of the Company's securities.

Notwithstanding the Board of Directors' policy of preferring to resort to capital increases with shareholders' preferential subscription rights maintained, special circumstances may arise in which a cancellation of shareholders' preferential subscription rights is necessary and in their interests, especially to provide for the possibility of paying for contributions entirely in shares in the case of a public exchange offer or, up to a limit of 10% of the share capital, where the conditions for a public exchange offer are not met (**17th resolution**).

The renewal of these delegations is proposed in order to give the Board of Directors the flexibility to issue shares or securities, on one

or more occasions, based on market characteristics at the time in question. These delegations comply with usual practices and recommendations in terms of amount, ceiling and duration, and are proposed on the same terms as the resolutions passed in 2016.

Furthermore, consideration would again be given to facilitating the placement of issues through private placements with qualified investors or a restricted circle of investors, if necessary (**15th resolution**).

The purpose of these delegations is to issue equity securities and securities granting access to the company's share capital up to a nominal ceiling of **€225 million**, as per the **13th to 22nd resolutions**.

In the event of the issue of securities representing debt claims against the Company under the **13th to 22nd resolutions**, the overall nominal amount of those debt securities shall not exceed **€5 billion** or the equivalent thereof.

In the event of excess demand for subscriptions for capital increases with or without preferential subscription rights pursuant to the **13th, 14th and 15th resolutions**, the **16th resolution** stipulates that the number of securities to be issued may be increased under the conditions and up to the limits set forth by law, namely up to a limit of 15% of the initial issue, within 30 days of the close of subscriptions and at the same price as that of the issue. Additional issues pursuant to the over-allotment clause (**16th resolution**) will count against the nominal ceiling of **€225 million**.

Delegation of authority to the Board of Directors to (i) issue ordinary shares and/or share equivalents of the Company and/or subsidiaries of the Company, and/or (ii) issue securities entitling the allocation of debt instruments, with preferential subscription rights maintained (usable only outside periods of a public tender offer / 13th resolution)

The delegation of authority granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 to issue securities with shareholders' preferential subscription rights maintained, expires on July 2, 2018.

The purpose of the **13th resolution** is to renew this delegation in order to give the Board of Directors the necessary flexibility, as previously, to carry out the share issuances best suited to market opportunities.

This delegation of authority relates to issues, with preferential subscription rights maintained, of the Company's ordinary shares or share equivalents, issued with or without payment, governed by Articles L. 228-91 *et seq.* of the French Commercial Code or granting access, directly or in the future, to the share capital of a company in which it directly or indirectly owns more than half the share capital. It

would be renewed for another **26-month period** as from the date of this Shareholders' Meeting and consequently supersede, as from that same date, any prior authorization that had the same purpose.

In the event of an issue of securities granting future access to new shares – such as bonds with stock subscription warrants, convertible bonds, or warrants issued autonomously – the decision of the Shareholders' Meeting would require shareholders to waive their right to subscribe for shares that may be obtained from those securities initially issued. The authorization of the Shareholders' Meeting would furthermore include the possibility of issuing securities that give rights to the Company's existing shares, such as OCEANE-type bonds (bonds convertible into shares to be issued or exchangeable for existing shares).

The Board of Directors would have the authority, under the same conditions, to issue securities granting access to the share capital of companies in which the Company directly or indirectly owns more than half the share capital. These issues would be subject to the approval of the Extraordinary Shareholders' Meeting of the subsidiary concerned.

This authorization would be renewed for a maximum nominal amount of the capital increases that may be made immediately or in the future pursuant to this delegation of **€225 million**, on the understanding that the nominal amount of the capital increases that may be made pursuant to the **14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st and 22nd resolutions** would be deducted from that amount.

On this basis, the Board of Directors would be authorized to carry out these issues, on one or more occasions, in the best interests of the Company and its shareholders and could, in accordance with the law, grant the shareholders a right to subscribe for an additional number of shares.

The Board of Directors would be authorized to issue warrants to subscribe for Company shares through a subscription offer as well as by a bonus allotment to the owners of existing shares.

The Board of Directors may, in each case, if the subscriptions have not resulted in the purchase of the entire issue, decide, in the order it shall determine and in accordance with the law, to limit the amount of the subscriptions received, or freely distribute all or some of the unsubscribed securities, or offer them to the public in France and/or abroad, as applicable.

This delegation of authority would also cover the authorization to issue, under the conditions described above, securities granting access to debt securities for a maximum nominal amount of **€5 billion**. Lastly, the Board of Directors would have the authority to allocate all of the issue costs related to the securities issued by virtue of this resolution to the corresponding share capital increase premiums, and to deduct from those premiums the amounts necessary to fund the legal reserve.

This delegation would only be usable outside periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to (i) issue ordinary shares and/or share equivalents of the Company and/or subsidiaries of the Company, and/or (ii) issue securities entitling the allocation of debt instruments, with preferential subscription rights waived (usable only outside periods of a public tender offer / 14th resolution)

The delegation of authority granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 to issue securities without shareholders' preferential subscription rights, expires on July 2, 2018.

The **14th resolution** authorizes the Board of Directors to carry out issues, by means of issues without preferential subscription rights, on one or more occasions, of shares and other securities granting access to share capital, immediately or in the future, of securities granting access to the share capital of companies in which the Company directly or indirectly owns more than half the share capital, of securities issued by companies in which the Company directly or indirectly owns more than half the share capital, up to a nominal amount of €225 million, on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 15th, 16th, 17th, 18th, 19th, 20th, 21st and 22nd resolutions** would be deducted from that amount, and in accordance with the same terms and conditions as those provided for in the **13th resolution** above, subject to the specific requirements set out below:

- the issue price of the shares issued directly shall be at least equal to the minimum required by the regulatory provisions applicable on the day of issue, i.e. the weighted average share price for the three trading sessions on Euronext Paris immediately prior to the price being set, less the 5% discount provided for by law, after correction of this average, if applicable, to take into account the difference between the dividend bearing dates, on the understanding that in the event of the issuance of share subscription warrants, the amount received by the Company when the warrants are subscribed shall be taken into account in the calculation;
- the issue price of the securities granting access to share capital shall be such that the amount immediately received by the Company plus, where applicable, the amount that may be subsequently collected by the Company, shall, for each share issued as a result of the issue of these securities, at least equal to the minimum subscription price defined above;

- lastly, the conversion, redemption or, more typically, the conversion of any convertible bond, redeemable or otherwise convertible into shares, shall result in a number of shares, taking into account the nominal value of the bond, such that the amount received by the Company is at least equal to the minimum subscription price defined above for each share issued.

Based on these factors, the Board of Directors would have the authority to set the issue price of the securities and, where applicable, the terms and conditions of payment of debt securities in the best interests of the Company and its shareholders, taking into account all relevant parameters.

If the subscriptions, including those made by shareholders, where applicable, have not resulted in the purchase of the entire issue, the Board of Directors would be authorized in the order that it shall determine (i) to limit the transaction amount to the amount of the subscriptions received provided that it is at least three-quarters of the decided issue, (ii) to freely allocate all or some of the unsubscribed securities, or (iii) to offer all or some of the securities to the public in both France and abroad.

The Board of Directors may allocate the costs of the capital increases to the amount of the premiums related thereto and deduct from those premiums the amounts necessary to fund the legal reserve.

Pursuant to Article L. 225-135, paragraph 2 of the French Commercial Code, the Board of Directors has the power to establish for the benefit of shareholders, for a period of time and according to the terms and conditions it shall determine in accordance with applicable laws and regulations and for all or part of an issue carried out, a subscription priority that does not give rise to the creation of negotiable rights but that must be exercised in proportion to the number of shares held by each shareholder.

The decision of the Shareholders' Meeting entails the waiver by the shareholders of their right to subscribe for shares that may be obtained from securities granting access to share capital.

This resolution would also allow the Board of Directors to issue, under the conditions described above, securities granting access to debt securities for a maximum nominal amount of **€5 billion**.

The delegation would be renewed for the same **26-month period** as from the date of this Shareholders' Meeting and consequently

supersede, as from that same date, any prior authorization that had the same purpose.

This delegation would be usable outside periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to issue ordinary shares or other securities, with preferential subscription rights waived, in the context of an offer governed by Article L. 411-2 II of the French Monetary and Financial Code (usable only outside periods of a public tender offer / 15th resolution)

The **15th resolution** would delegate to the Board of Directors the authority to carry out transactions, except during a period of a public tender offer for the Company, as part of an offer referred to in Article L. 411-2 II of the French Monetary and Financial Code, namely by private placement for qualified investors or a restricted group of investors, up to a legal limit of 20% of the share capital per year, and in any event up to a limit of **€225 million** in nominal value as indicated below. This delegation would be carried out under the same terms and conditions as the delegations provided for in the **14th resolution**, that is, for the purpose of issuing, without preferential subscription rights, on one or more occasions, shares and other

securities granting access to share capital immediately or in the future, within the limit of a nominal amount of **€225 million**, on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 14th, 16th, 17th, 18th, 19th, 20th, 21st and 22nd resolutions** would be deducted from that amount,

The term of validity of this delegation would be **26 months** and would cancel the delegation granted by the Shareholders' Meeting of May 3, 2016.

This delegation would only be usable outside periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to increase the number of securities to be issued in the event of an issue of securities with or without preferential subscription rights, in application of the 13th, 14th and 15th resolutions (usable only outside periods of a public tender offer / 16th resolution)

As permitted by law, the **16th resolution** would allow the Board of Directors, in order to meet excess demand or cope with market volatility, to decide as part of the capital increases with or without preferential subscription rights approved according to the terms of the **13th, 14th and 15th resolutions**, to increase the number of securities to be issued at the same price as that set for the initial issue, within the deadlines and limits set by the applicable regulations;

This option would allow the Board of Directors to issue an additional number of securities within 30 days of the close of subscriptions, limited to 15% of the initial issue and at the same price, while

remaining within the limit of the nominal amount stipulated in the **13th, 14th and 15th resolutions** and the overall ceiling set by the **23rd resolution** of this Shareholders' Meeting.

This new authorization for a term of **26 months** as from the date of this Shareholders' Meeting would renew the authorization previously granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 which expires in July 2018, and consequently would supersede, as from that same date, any prior authorization that had the same purpose.

This delegation would only be usable outside periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to issue ordinary shares and/or other securities in consideration for contributions of securities to the Company, within the limit of 10% of the share capital (usable only outside periods of a public tender offer / 17th resolution)

The delegation of authority granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 for the purpose of issuing securities without shareholders' preferential subscription rights in consideration for contributions of securities to the Company, expires on July 2, 2018.

The renewal of this delegation would authorize the Board of Directors to acquire shareholdings in medium-sized, unlisted companies by financing them through shares.

The **17th resolution** would consequently allow the Board of Directors to issue shares and other securities granting access to capital, without preferential subscription rights, on one or more occasions, immediately or in the future and up to a limit of **10%** of the Company's share capital, in consideration for contributions to the Company consisting of equity securities or securities granting access

to the share capital of an outside company, within the limit of a nominal amount of **€225 million**, based on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 14th, 15th, 16th, 18th, 19th, 20th, 21st and 22nd resolutions** would be deducted from that amount.

The delegation would be renewed for a **26-month period** as from the date of this Shareholders' Meeting, and would supersede any prior delegation of authority with the same purpose from this same date.

This option, which would be offered to the Board of Directors, would result in the involvement of auditors prior to any issue.

This delegation would only be usable outside periods of public tender offers for the Company's securities.

Delegations usable only during a period of a public tender offer for the Company's securities

The delegations of authority submitted to the Shareholders' Meeting and referred to in the **18th, 19th, 20th, 21st and 22nd resolutions** meet the same objectives as those under the **13th, 14th, 15th, 16th and 17th resolutions** of this Meeting. They are similar on all counts but would be usable only during periods of a public tender offer for the Company's securities.

The purpose of these delegations is to issue equity securities and securities granting access to the company's share capital up to a nominal ceiling of **€225 million**, as per the **13th to 22nd resolutions**.

In the event of the issue of securities representing claims against the Company under the **13th to 22nd resolutions**, the overall nominal

amount of those debt securities shall not exceed **€5 billion** or the equivalent thereof.

In the event of excess demand for subscriptions for capital increases with or without preferential subscription rights pursuant to the **18th, 19th and 20th resolutions**, the **21st resolution** stipulates that the number of securities to be issued may be increased under the conditions and up to the limits set forth by law, namely up to a limit of 15% of the initial issue, within 30 days of the close of subscriptions and at the same price as that of the issue. Additional issues pursuant to the over-allotment clause (**21st resolution**) will count against the nominal ceiling of **€225 million**.

Delegation of authority to the Board of Directors to (i) issue ordinary shares and/or share equivalents of the Company and/or subsidiaries of the Company, and/or (ii) issue securities entitling the allocation of debt securities, with preferential subscription rights maintained (usable only during periods of a public tender offer / 18th resolution)

The delegation of authority granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 to issue securities with shareholders' preferential subscription rights maintained, expires on July 2, 2018.

The purpose of the 18th resolution is to grant the Board of Directors the necessary flexibility to carry out the share issues best suited to market opportunities.

This delegation of authority relates to issues, with preferential subscription rights maintained, of the Company's ordinary shares or share equivalents, issued with or without payment, governed by Articles L. 228-91 *et seq.* of the French Commercial Code or granting access, directly or in the future, to the share capital of a company in which it directly or indirectly owns more than half the share capital.

In the event of an issue of securities granting future access to new shares – such as bonds with stock subscription warrants, convertible bonds, or warrants issued autonomously – the decision of the Shareholders' Meeting would require shareholders to waive their right to subscribe for shares that may be obtained from those securities initially issued. The authorization of the Shareholders' Meeting would furthermore include the possibility of issuing securities that give rights to the Company's existing shares, such as OCEANE-type bonds (bonds convertible into shares to be issued or exchangeable for existing shares).

The Board of Directors would have the authority, under the same conditions, to issue securities granting access to the share capital of companies in which the Company directly or indirectly owns more than half the share capital. These issues would be subject to the approval of the Extraordinary Shareholders' Meeting of the subsidiary concerned.

This authorization would be renewed for a maximum nominal amount of the capital increases that may be made immediately or in the future

pursuant to this delegation of **€225 million**, on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 14th, 15th, 16th, 17th, 19th, 20th, 21st and 22nd resolutions** would be deducted from that amount.

On this basis, the Board of Directors would be authorized to carry out these issues, on one or more occasions, in the best interests of the Company and its shareholders and could, in accordance with the law, grant the shareholders a right to subscribe for an additional number of shares.

The Board of Directors would be authorized to issue warrants to subscribe for Company shares through a subscription offer as well as by a bonus allotment to the owners of existing shares.

The Board of Directors may, in each case, if the subscriptions have not resulted in the purchase of the entire issue, decide, in the order it shall determine and in accordance with the law, to limit the amount of the subscriptions received, or freely distribute all or some of the unsubscribed securities, or offer them to the public in France and/or abroad, as applicable.

This delegation of authority would also cover the authorization to issue, under the conditions described above, securities granting access to debt securities for a maximum nominal amount of **€5 billion**. Lastly, the Board of Directors would have the authority to allocate all of the issue costs related to the securities issued by virtue of this resolution to the corresponding share capital increase premiums, and to deduct from those premiums the amounts necessary to fund the legal reserve.

The term of validity of this delegation would be set at **26 months** as from this Shareholders' Meeting.

This delegation would only be usable during periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to (i) issue ordinary shares and/or share equivalents of the Company and/or subsidiaries of the Company, and/or (ii) issue securities entitling the allocation of debt securities, without preferential subscription rights (usable only during periods of a public tender offer / 19th resolution)

The delegation of authority granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 to issue securities without shareholders' preferential subscription rights, expires on July 2, 2018.

The **19th resolution** authorizes the Board of Directors to carry out issues, by means of issues without preferential subscription rights, on one or more occasions, of shares and other securities granting access to share capital, immediately or in the future, of securities granting access to the share capital of companies in which the Company directly or indirectly owns more than half the share capital, of securities issued by companies in which the Company directly or indirectly owns more than half the share capital, up to a nominal amount of €225 million, on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 14th, 15th, 16th, 17th, 18th, 20th, 21st and 22nd resolutions** would be deducted from that amount, and in accordance with the same terms and conditions as those provided for in the **18th resolution** above, subject to the specific requirements set out below:

- the issue price of the shares issued directly shall be at least equal to the minimum required by the regulatory provisions applicable on the day of issue, i.e. the weighted average share price for the three trading sessions on Euronext Paris immediately prior to the price being set, less the 5% discount provided for by law, after correction of this average, if applicable, to take into account the difference between the dividend bearing dates, on the understanding that in the event of the issuance of share subscription warrants, the amount received by the Company when the warrants are subscribed shall be taken into account in the calculation;
- the issue price of the securities granting access to share capital shall be such that the amount immediately received by the Company plus, where applicable, the amount that may be subsequently collected by the Company, shall, for each share issued as a result of the issue of these securities, at least equal to the minimum subscription price defined above;
- lastly, the conversion, redemption or, more typically, the conversion of any convertible bond, redeemable or otherwise convertible into shares, shall result in a number of shares, taking into account the nominal value of the bond, such that the amount

received by the Company is at least equal to the minimum subscription price defined above for each share issued.

Based on these factors, the Board of Directors would have the authority to set the issue price of the securities and, where applicable, the terms and conditions of payment of debt securities in the best interests of the Company and its shareholders, taking into account all relevant parameters.

If the subscriptions, including those made by shareholders, where applicable, have not resulted in the purchase of the entire issue, the Board of Directors would be authorized in the order that it shall determine (i) to limit the transaction amount to the amount of the subscriptions received provided that it is at least three-quarters of the decided issue, (ii) to freely allocate all or some of the unsubscribed securities, or (iii) to offer all or some of the securities to the public in both France and abroad.

The Board of Directors may allocate the costs of the capital increases to the amount of the premiums related thereto and deduct from those premiums the amounts necessary to fund the legal reserve.

Pursuant to Article L.225-135, paragraph 2 of the French Commercial Code, the Board of Directors has the power to establish for the benefit of shareholders, for a period of time and according to the terms and conditions it shall determine in accordance with applicable laws and regulations and for all or part of an issue carried out, a subscription priority that does not give rise to the creation of negotiable rights but that must be exercised in proportion to the number of shares held by each shareholder.

The decision of the Shareholders' Meeting entails the waiver by the shareholders of their right to subscribe for shares that may be obtained from securities granting access to share capital.

This resolution would also allow the Board of Directors to issue, under the conditions described above, securities granting access to debt securities for a maximum nominal amount of **€5 billion**.

The term of validity of this delegation would be set at **26 months** as from this Shareholders' Meeting.

This delegation would only be usable during periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to issue ordinary shares or other securities, with preferential subscription rights waived, in the context of an offer governed by Article L. 411-2 II of the French Monetary and Financial Code (usable only during a period of a public tender offer / 20th resolution)

The **20th resolution** would delegate to the Board of Directors the authority to carry out transactions, except during a period of a public tender offer for the Company, as part of an offer referred to in Article L. 411-2 II of the French Monetary and Financial Code, namely by private placement for qualified investors or a restricted group of investors, up to a legal limit of 20% of the share capital per year, and in any event up to a limit of **€225 million** in nominal value as indicated below. This delegation would be carried out under the same terms and conditions as the delegations provided for in the **19th resolution**, that is, for the purpose of issuing, without preferential subscription rights, on one or more occasions, shares and other

securities granting access to share capital immediately or in the future, within the limit of a nominal amount of **€225 million**, on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 14th, 15th, 16th, 17th, 18th, 19th, 21st and 22nd resolutions** would be deducted from that amount.

The term of validity of this delegation would be set at **26 months** as from this Shareholders' Meeting.

This delegation would only be usable during periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to increase the number of securities to be issued in the event of an issue of securities with or without preferential subscription rights, in application of the 18th, 19th and 20th resolutions (usable only during periods of a public tender offer / 21st resolution)

As permitted by law, the **21st resolution** would allow the Board of Directors, in order to meet excess demand or cope with market volatility, to decide as part of the capital increases with or without preferential subscription rights approved according to the terms of the **18th, 19th and 20th resolutions**, to increase the number of securities to be issued at the same price as that set for the initial issue, within the deadlines and limits set by the applicable regulations;

This option would allow the Board of Directors to issue an additional number of securities within 30 days of the close of subscriptions,

limited to 15% of the initial issue and at the same price, while remaining within the limit of the nominal amount stipulated in the **18th, 19th and 20th resolutions** and the overall ceiling set by the **23rd resolution** of this Shareholders' Meeting.

The term of validity of this delegation would be set at **26 months** as from this Shareholders' Meeting.

This delegation would only be usable during periods of public tender offers for the Company's securities.

Delegation of authority to the Board of Directors to issue ordinary shares and/or other securities in consideration for contributions of securities to the Company, within the limit of 10% of the share capital (usable only during periods of a public tender offer / 22nd resolution)

The delegation of authority granted to the Board of Directors by the Shareholders' Meeting of May 3, 2016 for the purpose of issuing securities without shareholders' preferential subscription rights in consideration for contributions of securities to the Company, expires on July 2, 2018.

The **22nd resolution** would authorize the Board of Directors to acquire shareholdings in medium-sized, unlisted companies by financing them through shares.

Consequently, the Board of Directors would be able to issue shares and other securities granting access to share capital, without preferential subscription rights, on one or more occasions, immediately or in the future and up to a limit of **10%** of the Company's share capital, in consideration for contributions to the

Company consisting of equity securities or securities granting access to the capital of an outside company, within the limit of a nominal amount of **€225 million**, based on the understanding that the nominal amount of the capital increases that may be made pursuant to the **13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th and 21st resolutions** would be deducted from that amount.

This option, which would be offered to the Board of Directors, would result in the involvement of auditors prior to any issue.

The term of validity of this delegation would be set at **26 months** as from this Shareholders' Meeting.

This delegation would only be usable during periods of public tender offers for the Company's securities.

Limitation of the overall ceiling of authorizations for immediate and/or future capital increases (23rd resolution)

The **23rd resolution** would renew the limitation on the overall maximum nominal amount of the capital increases that may be carried out by virtue of the delegations referred to in the **13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 26th and 27th resolutions**, set at **€265 million**. This is an overall ceiling common to said resolutions, to which is added the nominal amount of the additional

shares that may be issued in the event of further financial transactions, in order to protect the rights of holders of securities granting access to share capital and the rights of stock option beneficiaries.

This limitation replaces that set by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016.

Delegation of authority to the Board of Directors to increase the share capital through the capitalization of additional paid-in capital, reserves, earnings or other accounting items (24th resolution)

The delegation of authority granted to the Board of Directors by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016 to approve the increase in the share capital through the capitalization of additional paid-in capital, reserves, earnings or other accounting items expires on July 2, 2018, it being specified that this delegation has not been used.

The purpose of the **24th resolution** is to allow the Board of Directors to increase the share capital on one or more occasions through the capitalization of additional paid-in capital, reserves, profits or any other accounting items that may be capitalized legally and according to the bylaws. This transaction, which does not necessarily result in the issue of new shares, must be approved by the Extraordinary Shareholders' Meeting, voting under the rules of quorum and majority required for ordinary shareholders' meetings.

In accordance with the law, the Board of Directors would have full powers, with the option of subdelegation, to implement this

delegation, and in particular to determine the nature and amount of sums to be capitalized, as well as the process(es) for carrying out the increase, increasing the nominal value of existing securities and/or allocating free equity securities, and amending the bylaws accordingly.

In the case of allocating new equity securities, the ex-dividend date of which may, if necessary, be retroactive, the Board of Directors may decide that the rights forming odd lots shall not be transferable and that the corresponding securities shall be sold, the funds received from the sale being allocated to the holders of the rights in the manner laid down by the regulations.

This delegation of authority would be renewed for a further 26-month period as from this Shareholders' Meeting and supersede, as from that date, the authorization previously granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016 that had the same purpose.

Authorization to be granted to the Board of Directors to reduce the share capital through the cancellation of treasury shares (25th resolution)

The authorization granted to the Board of Directors by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016, under the terms of its 28th resolution, to approve the reduction in share capital through the cancellation of treasury shares, expires on July 2, 2018, it being specified that the Company has not canceled any shares under this delegation.

The purpose of the **25th resolution** is to authorize the Board of Directors to cancel all or some of the Company's shares that it may acquire by virtue of any authorization, now or in the future, granted by

the Ordinary Shareholders' Meeting in the manner laid down by Article L. 225-209 of the French Commercial Code, within the limit of a maximum amount of 10% of the shares making up the Company's capital per 24-month period.

This delegation of authority could be renewed for a further **26-month** period as from this Shareholders' Meeting and would supersede, as from that date, the authorization previously granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 3, 2016.

EMPLOYEE SHAREHOLDING

The purpose of the delegations of authority referred to in the **26th** and **27th** resolutions below is to renew the authorizations previously granted to the Board of Directors by the Shareholders' Meeting in connection with the development of Group-wide employee shareholding, by granting the Board the power to carry out further transactions related to employee shareholding at the time of its choosing.

The objectives are as follows:

- to unite all employees, strengthen their sense of belonging to the ENGIE group and involve them in the transformation project;
- to signal its satisfaction with and commitment to employee shareholding, by renewing operations that are recurring and expected by employees;

- to seize a unique opportunity for ENGIE to express itself to its employees in many countries in their local languages;
- to achieve a level of employee shareholding comparable to that of other companies in the CAC 40 in order for ENGIE to arrive at a significant percentage over a five-year period (as a percentage of capital or voting rights).

Under such plans, employees are offered three investment options:

- a "Classic" investment formula, without financial leverage; and
- two "Multiple" investment formulas with financial leverage and capital protection.

Employee shareholding plans may be set up, in whole or in part, through the use of treasury shares.

Delegation of authority to the Board of Directors to increase the share capital by issuing shares or securities granting access to equity securities to be issued, with preferential subscription rights waived, for the benefit of ENGIE group employee savings plan members (26th resolution)

Under the **26th resolution**, Shareholders would, in accordance with Articles L. 225-129-6 and L. 225-138-1 of the French Commercial Code and L. 3332-1 *et seq.* of the French Labor Code, authorize the Board of Directors, with the power to subdelegate in accordance with law, to increase the share capital on one or more occasions by a maximum nominal amount of **2%** of the share capital on the date of the implementation of the delegation, with the proviso that this ceiling shall apply to all capital increases carried out under the **27th resolution** of this Shareholders' Meeting, by issuing shares or securities granting access to equity securities to be issued and reserved for members of one or more Company employee savings plans that may be set up within the Company or its Group, consisting of the Company and its French and international affiliates, or by combining the Company's accounts in application of Article L. 3344-1 of the French Labor Code, with the proviso that this authorization may be used for the purposes of implementing the so-called leveraged "Multiple" investment formulas.

In accordance with the law, the Shareholders' Meeting would waive the shareholders' preferential subscription rights to new shares or other securities giving access to capital in favor of the above-mentioned beneficiaries.

The issue price of new shares could not be less than the Reference Price which stands for average listed price of the ENGIE share on the NYSE Euronext Paris stock exchange during the 20 trading sessions prior to the date of the decision setting the opening date of the subscription period for the capital increase reserved for Company employee savings plan members, less a discount of 20%, or 30% when the holding period stipulated by the plan is equal to or over 10 years, in accordance with applicable law. However, the Board of Directors may reduce or eliminate such discounts, subject to

statutory and regulatory requirements, in order to take into account the impact of local legal, accounting, tax and social security systems. In case of issue of securities giving access to equity securities to be issued, the price would also be determined by reference to the terms described in this paragraph.

In addition to shares or securities to be subscribed in cash, the Board of Directors may award, at no cost to the beneficiaries listed above, new or existing shares or securities as a substitute for all or a portion of the discount relative to the aforementioned average, and/or the matching contribution, provided that the benefit from such award does not exceed the statutory or regulatory limits pursuant to Articles L. 3332-18 *et seq.* and L. 3332-11 *et seq.* of the French Labor Code. In accordance with the law, this decision would entail the Shareholders' waiver of any preferential right to shares or securities giving access to capital which would be freely awarded under this resolution.

The renewal of this delegation would take effect as from September 1, 2018 for a **26-month period** starting from this Meeting and would supersede the authorization (for the unused portion) previously granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017, it being specified that the Link 2018 Employee Shareholding Offer, being set up as at the date of this Meeting, was authorized by the Board of Directors at its meeting of December 13, 2017, primarily by virtue of the 14th resolution of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017 which will therefore remain in effect until August 31, 2018.

The amount of the capital increases thus carried out would count against the overall ceiling of **€265 million** referred to in the **23rd resolution** of this Shareholders' Meeting.

Delegation of authority to the Board of Directors to increase the share capital by issuing shares or share equivalents, without preferential subscription rights, in favor of any entity constituted as part of the implementation of an ENGIE Group international employee shareholding plan (27th resolution)

Like the previous resolution, the purpose of the **27th resolution** is to enable the Board of Directors to increase the share capital, without preferential subscription rights, by issuing shares or securities granting access to equity securities to be issued, reserved for all entities whose exclusive purpose is to purchase, hold and sell ENGIE shares or other financial instruments as part of the implementation of the leveraged "Multiple" investment formulas, or any trusts set up to establish a Share Incentive Plan under English law, of an ENGIE Group international employee shareholding plan, for a maximum nominal amount of **0.5%** of the share capital on the date of implementation of the authorization, with the proviso that such issues will be counted against the **2%** overall ceiling set in the **26th resolution**. The subscription price for shares issued by the entity or entities would be equal to that offered to employees joining the leveraged "Multiple" investment formulas under the **26th resolution** relating to the capital increase reserved for members of the company employee savings plans detailed above and which will be proposed to this Shareholders' Meeting, subject to the power granted to the Board of Directors when setting the price to eliminate or reduce the discount provided for in the aforementioned **26th resolution**.

The shares or equity securities of the entity or entities that are beneficiaries of this reserved capital increase may be offered to the employees of consolidated foreign subsidiaries of the ENGIE Group pursuant to Article L. 3344-1 of the French Labor Code which for local regulatory or tax reasons may not subscribe for ENGIE shares under the aforementioned **26th resolution**.

The ENGIE shares purchased by the entity or entities could, where applicable, be assigned in full or in part to one or more credit establishments headquartered either in France or in another European Union member state for the purpose of covering the needs of the leveraged "Multiple" formulas.

The Shareholders are asked to give the Board of Directors a certain amount of latitude in the choice of the structure allowing for the best implementation of the leveraged "Multiple" formulas for employees of

the ENGIE Group in the countries concerned, in light of the changes in the applicable legislation.

In order to adapt the shareholding plans presented to the employees in each country concerned, where applicable, the proposed delegation of authority granted to the Board of Directors shall include the authority granted to the Board to determine the shareholding plans and to distinguish between (i) countries where employees will be offered shares or equity interests in the above-mentioned entity or entities and (ii) countries where employees will subscribe for ENGIE shares under the aforementioned **26th resolution**.

If, as a result of substantial subscriptions, the number of subscriptions were to exceed the maximum number of shares authorized for issue, the Board of Directors would reduce employee subscriptions in accordance with the rules that it has set under the terms of French law and within the limits set by the authorization granted by the Shareholders' Meeting. The reduction of subscriptions would be done resolution by resolution and would therefore concern only the oversubscribed capital increase. The reduction rules would be set by the Board of Directors, and could involve scaling back the number of subscriptions per employee and/or a proportional reduction in employee subscriptions.

The renewal of this delegation would take effect as from September 1, 2018 for a **18-month period** starting from this Meeting and would supersede the authorization (for the unused portion) previously granted by the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017, it being specified that the Link 2018 Employee Shareholding Offer, being set up as at the date of this Meeting, was authorized by the Board of Directors at its meeting of December 13, 2017, primarily by virtue of the 15th resolution of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017 which will therefore remain in effect until August 31, 2018.

The amount of the capital increase thus carried out would count against the overall ceiling of **€265 million** referred to in the **23rd resolution** of this Shareholders' Meeting.

Authorization granted to the Board of Directors to award bonus shares to employees and officers of ENGIE Group companies (except for corporate officers of the ENGIE company) and to employees participating in an ENGIE Group international employee shareholding plan (28th resolution)

The purpose of the **28th resolution** is to propose that the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017 grant the Board of Directors authorization to award bonus shares to all employees and corporate officers of Group companies, except for the corporate officers of the Company ("Global Plans"). It will also be used for the allocation of free shares as matching contributions to employees participating in any international employee shareholding plan of the ENGIE group.

The number of shares awarded would be limited to **0.75%** of the share capital for the entire duration of the authorization granted by the Shareholders' Meeting to the Board of Directors, with the proviso

that this amount (i) is an overall ceiling for all awards made pursuant to the **28th** and **29th resolutions** of this Shareholders' Meeting, and (ii) would be combined with an annual sub-ceiling of 0.25% of the share capital. The shares awarded would be outstanding shares.

The shares awarded would be subject to a condition of continuous service at the ENGIE group at the end of the vesting period. They would be subject to a minimum two-year vesting period.

In accordance with the provisions of Article L. 225-197-4 of the French Commercial Code, a special report will be drawn up to inform the Shareholders of the transactions carried out under this authorization.

Authorization to be granted to the Board of Directors to award bonus shares to some employees and officers of ENGIE Group companies (except for corporate officers of the ENGIE company) (29th resolution)

The purpose of the **29th** resolution is to propose that the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017 grant the Board of Directors authorization to award bonus shares to some employees and corporate officers of Group companies, except for the corporate officers of the Company.

The number of shares awarded would be limited to **0.75%** of the share capital as of the date of the Board of Directors' decision, with the proviso that this amount (i) is an overall ceiling for all awards made pursuant to the **28th** and **29th** resolutions of this Shareholders' Meeting, and (ii) would be combined with an annual sub-ceiling of 0.25% of the share capital. The shares awarded would be outstanding shares.

The award of shares to the beneficiaries would be subject to the condition of continuous service in the ENGIE Group at the end of the vesting period of at least three years, except for some beneficiaries of the Trading activity (subject to an obligation to stagger a portion of their annual variable compensation, in the form of securities, over several consecutive years) for whom the minimum vesting period could be two years for some of the shares awarded.

For the Group's senior managers, the aggregate vesting and holding periods would be set at a minimum of four years, including at least three years for vesting. No minimum holding period would apply to any other beneficiary. The Shareholders are also reminded that the members of the Executive Committee have an objective to build an ENGIE share portfolio equivalent to one and a half years' fixed compensation. Until they achieve this objective, they are obliged to hold two-thirds of their vested performance shares which have become transferable (see Section 4.6.5.1 of the 2017 Registration Document).

All beneficiaries, except those in the Trading business, would be subject to the following three performance conditions, with each counting for one-third of the total: (i) an internal condition linked to ENGIE's net recurring income, Group share for the two years preceding the final vesting date compared to the budgeted net recurring income, Group share set for the same years (pro forma); (ii) an internal condition linked to ROCE (return on capital employed) for the two years preceding the final vesting date compared to the target ROCE set in the budget for the same years (pro forma); and (iii) an external condition linked to the TSR (total shareholder return) of the ENGIE share, for a minimum three-year period, compared with that of a reference panel over the same period.

The reference panel consists of EDF, EDP, E.ON, Innogy, RWE, ENEL, Iberdrola, Gas Natural, Spie and Uniper (the "Panel"), with each company weighted equally, with the exception of E.ON, Innogy, RWE and Uniper, which count for 50% for weighting purposes. Spie and EDP have been added since 2017 to reflect the Group's transformation, which relies heavily on the energy service business lines and renewable energy, and more generally the current energy landscape.

Except for the senior managers, the first 150 shares awarded would be exempt from performance conditions.

For the sake of transparency, the scoring of performance conditions will be as follows:

- result \leq 75% of target: 0% success
- result \geq 100% of target: 100% success
- the increase between the two limits will be linear.

In the event of a major change in the ENGIE group's profile, the Board of Directors would choose other performance conditions more relevant to the new profile.

For some beneficiaries in Trading (subject to an obligation to stagger a portion of their annual variable compensation, in the form of securities, over several consecutive years), a condition specific to their activity may be applied.

For beneficiaries under the Innovation promotion programs or similar, the Board of Directors may decide to eliminate the performance condition.

In accordance with the provisions of Article L. 225-197-4 of the French Commercial Code, a special report will be drawn up to inform the Shareholders of the transactions carried out under this authorization.

The **28th** and **29th** resolutions would apply for a **38-month period** from this Shareholders' Meeting and would supersede the authorization (for the unused portion) previously granted under the 16th and 17th resolutions of the Combined Ordinary and Extraordinary Shareholders' Meeting of May 12, 2017.

COMMON PROVISIONS

The delegations of authority and authorizations referred to above would be given to the Board of Directors, with the power to subdelegate in accordance with the law.

Shareholders' attention is drawn to the obligation for the French State to own more than one-third of the capital or voting rights of ENGIE, with the proviso that the State's interest may temporarily fall below the threshold, as long as it returns to the required ownership threshold for capital or voting rights within two years.

Furthermore, in accordance with the statutory provisions applicable to the Company, when the implementation of the various delegations and authorizations would dilute the State's interest, they must be unanimously approved by the French Privatization Board (*Commission des participations et des transferts*).

The Statutory Auditors have issued reports on the **26th**, **27th**, **28th** and **29th** resolutions which have each been made available to the Shareholders in accordance with statutory and regulatory requirements.

Should the Board of Directors implement the delegations of authority granted by the Shareholders' Meeting under the **26th**, **27th**, **28th** and **29th** resolutions, it would be required to prepare, as appropriate and in accordance with the laws in force at the time of its decision, an additional report describing the final terms and conditions of the transaction, and indicating, where appropriate, its impact on the status of shareholders or securities holders, specifically as regards their proportion of the total shareholders' equity. This report and, if applicable, that of the Statutory Auditors, would be made available to shareholders and securities holders and then brought to their attention at the next Shareholders' Meeting.

Powers to implement the resolutions adopted by the Shareholders' Meeting and to perform the related formalities (30th resolution)

The purpose of the **30th** resolution is to grant full powers to the bearer of a copy or extract of the minutes of this Shareholders' Meeting to carry out all filings and other formalities as required.

In our capacity as Statutory Auditors of ENGIE (the "Company"), we hereby report on the various capital-related transactions upon which you are called to vote.

1. Report on the issue of shares and various securities with or without preferential subscription rights under resolutions thirteen to twenty-three

In accordance with the role laid out in Articles L. 228-92 and L. 225-135 *et seq.* of the French Commercial Code (*Code de commerce*), we hereby report on the proposed delegations of authority to your Board of Directors for various issues of shares and/or marketable securities, transactions upon which you are called to vote.

On the basis of its report, your Board of Directors proposes that:

 - the issue, with preferential subscription rights, of ordinary shares of the Company or marketable securities (i) giving access to the share capital of the Company or to the share capital of any company in which it directly or indirectly holds more than half of the share capital, subject to the approval of the Extraordinary Shareholders' Meeting of the company in which the rights are exercised, or (ii) entitling the allocation of debt instruments (thirteenth resolution regarding the authorization that can only be used outside periods of public tender offers for the Company's securities, and eighteenth resolution regarding the authorization that can only be used during periods of public tender offers);

 - the Company's ordinary shares or marketable securities giving access to the Company's ordinary shares may be issued in consideration for securities contributed to the Company as part of a public exchange offer meeting the conditions laid down in Article L. 225-148 of the French Commercial Code;
 - the ordinary shares or marketable securities giving access to the share capital of the Company, may result from the issue by companies in which the Company directly or indirectly owns more than half of the share capital, of marketable securities giving access to the share capital of the Company;
 - the marketable securities to be issued may give access to the share capital of companies in which the Company directly or indirectly owns more than half of the capital subject to the approval of the Extraordinary Shareholders' Meeting of the company in which the rights are exercised;

- it be authorized, from the date of this Combined Shareholders' Meeting, for a period of twenty-six months, to issue ordinary shares or various marketable securities giving access to the Company's share capital, within the limit of 10% of the share capital at the issue date, in consideration for contributions in kind to the Company in the form of shares or marketable securities giving access to the share capital of other companies (seventeenth resolution regarding the authorization that can only be used outside periods of public tender offers for the Company's securities, and twenty-second resolution regarding the authorization that can only be used during periods of public tender offers);

The overall nominal amount of capital increases that may be carried out immediately or at a later date under the resolutions thirteen to twenty-two and twenty-six to twenty-seven may not exceed €265 million, as provided in the twenty-third resolution, noting that:

These ceilings include the additional number of shares and securities to be issued as part of the authorizations implemented (i) under the thirteenth, fourteenth and fifteenth resolutions that can only be used outside periods of public tender offers for the Company's securities and (ii) under the eighteenth, nineteenth and twentieth resolutions that can only be used during periods of public tender offers, as provided in Article L. 225-135-1 of the French Commercial Code, if you adopt the sixteenth and twenty-first resolutions.

It is the responsibility of your Board of Directors to prepare a report in accordance with Articles R. 225-113 *et seq.* of the French Commercial Code. It is our responsibility to report on the fairness of data drawn from the financial statements, on the proposal to cancel the preferential subscription rights, and on certain other information about these transactions provided in that report.

We have performed those procedures which we considered necessary to comply with the professional guidance issued by the French national auditing body (*Compagnie Nationale des Commissaires aux Comptes*) for this type of engagement. These procedures included verifying the contents of the Board of Directors' report on these transactions and on the methods used to determine the price of the shares to be issued.

Subject to a subsequent examination of the conditions governing the issues to be decided, we have no matters to report as to the methods used to determine the price for the shares to be issued under the fourteenth, fifteenth, nineteenth and twentieth resolutions, as provided in the Board of Directors' report.

Moreover, as the methods used to determine the issue price of the shares to be issued in accordance with the thirteenth, seventeenth, eighteenth and twenty-second resolutions are not specified in that report, we cannot report on the choice of constituent elements used to determine the price of the shares to be issued.
